I. INTRODUCTORY SECTION	

March 28, 2016

Honorable L.B. Ahrens, Jr., Commission Chairman

**Cherokee County Board of Commissioners** 

and the Citizens of Cherokee County

# Gentleman:

State law and local ordinances require that every general purpose local government publish a complete set of audited financial statements each fiscal year. This report, the 2015 Comprehensive Annual Financial Report (CAFR), is published to fulfill that requirement for the fiscal year ended September 30, 2015.

Management assumes full responsibility for the completeness and reliability of the information contained in the report, based on a comprehensive framework of internal controls established for this purpose.

Because the cost of internal controls should not exceed the anticipated benefits, the objective is to provide reasonable rather than absolute assurance that the financial statements are free of any material misstatements.

The report has been prepared in accordance with generally accepted accounting principles, and to the best of our knowledge, the enclosed data is accurate in all material respects and reported in a manner designed to fairly present the financial position and results of operations of Cherokee County.

The County receives financial assistance through various federal grant programs, and is therefore, required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and US Office of Management and Budget Circular A-133, Audits of States, Local Governments and Non-Profit Organizations. Information related to this single audit, including the schedule of federal financial assistance, findings, questioned costs, and auditor's reports on the internal control over financial reporting and compliance, are included in a separate report.

Cherokee County's financial statements have been audited by Mauldin & Jenkins, LLC, a firm of licensed public accountants. Mauldin & Jenkins, LLC, have issued an unmodified ("clean") opinion on Cherokee County's financial statements for the year ended September 30, 2015. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

# Introduction

# **Our History**

Cherokee County was formed in 1830 from lands previously held by the Cherokee Indians. The very name of the county honors the proud people who first settled here. Its 6,900 square miles were subsequently divided into 24 other counties. Cherokee first attracted permanent residents through a land lottery while others settled along the Etowah River and dreamed of finding gold, like their Indian predecessors. Canton, the county seat, was named after the city in China, based on the city founders' attempt to establish silk production. The Canton Cotton Mills opened in 1899.

Canton Cotton Mill #2 was built in 1923, and is located northeast of the city of Canton. The mill was designed and built by C.E. Blank, an architect and builder for Dressler Industries, headquartered in New England.

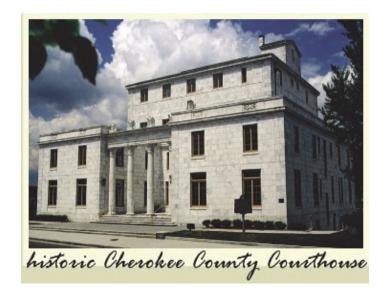

Canton Cotton Mills, later Canton Textile Mills, was one of the largest manufacturers in the south. "Canton Denim" was known for its high quality and was sought by people throughout the country.

The old cotton mills have recently been transformed into a new apartment community along the Etowah River.

Although cotton was king, the marble finishing business in the north end of the county would prove to be the county's largest revenue producer for a number of years to come.

Georgia Marble Finishing Works was the largest marble company in the area. This white Georgia marble façade was created in 1927 for the Cherokee County courthouse. A much larger courthouse was built in 1994, but the County still uses the beautiful historic courthouse to house smaller departments.

Georgia Marble Company purchased Georgia Marble Finishing works in 1941. Their stone can be found in monuments and public buildings around the world, including New York's Stock Exchange annex, the Lincoln Memorial, and the 24 columns of the U.S. Capitol in Washington, D.C.

# Cherokee County Present Day

Cherokee County is perfectly located 30 miles north of Atlanta where "Metro Meets the Mountains." The county is now 434 square miles in area, and with a population of about 225,000, it is the 7<sup>th</sup> largest of Georgia's 159 counties. When people think of Cherokee County, Georgia, they often think of its rugged beauty and eclectic community. For example, the county boasts over 2,000 acres of parks and greenspace. And under the \$90 Million Parks, Recreation, and Greenspace Bond which was successfully approved by the citizens of Cherokee County on the November 4, 2008 election ballot, funds will continue to be used to improve existing parks and develop brand new parks for active recreation and passive enjoyment.

In addition to the county's natural beauty and recreation, Cherokee County is one of Georgia's most exciting markets. Cherokee County offers a well-educated and well-equipped workforce, exceptional transportation, and a host of financial incentive programs necessary for sustainable, long-term growth. For professionals and their families, Cherokee County offers a diverse range of housing, impressive healthcare, excellent education, low property taxes, and cultural opportunities necessary for comfortable living and continuous personal growth. There are 5 main municipalities in Cherokee County: Canton, Woodstock, Ball Ground, Holly Springs, and Waleska.

Cannon Park, Canton

Downtown Woodstock

Gibbs Gardens, Ball Ground

Holly Springs Train Depot & Community Center

Reinhardt University, Waleska

# **Profile of Government**

Cherokee County is governed by the Commission Chairman and a four member Board of Commissioners.

The Board serves as the legislative and policymaking body of the county government. It enacts county ordinances and appropriates funds to conduct county business and provides policy direction to the administrative staff.

The County Manager works closely with the Board to assist them in developing policies and programs. Overseeing all county employees, the manager is responsible for the efficient ongoing operation of all county services. Cherokee County provides services to approximately 225,000 citizens and 6,000 businesses. Included in these services are traditional county functions such as public safety (sheriff office, fire protection, and emergency/ambulance services), code enforcement, judicial/court services, planning and zoning, business licenses and building permits, road maintenance, parks and recreation, senior services, animal shelter services, and bus transportation.

Front Row: Commissioner Raymond Gunnin and Chairman L.B. Ahrens, Jr., Back Row: Commissioners Steve West, Brian Poole, and Scott Gordon.

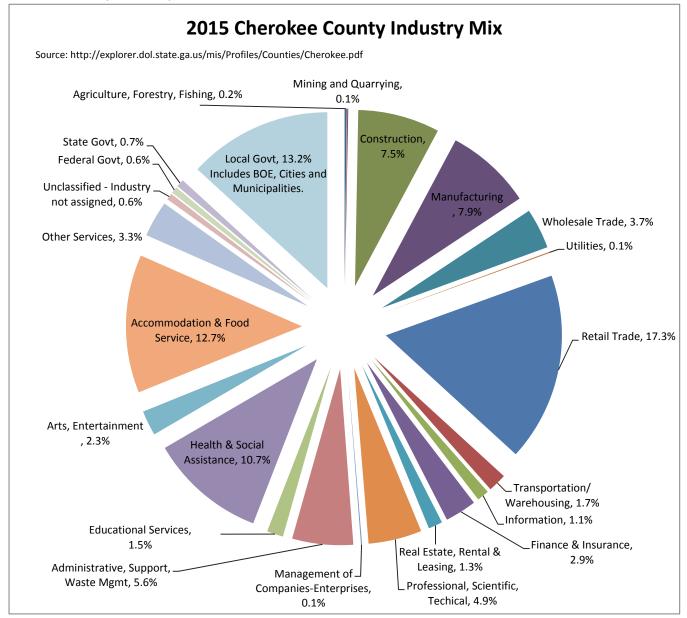

financial The statements, schedules, and statistical tables in this report include all the funds of the primary government which are under the directly control of the Board of Commissioners, as well as its component units. A component unit is a separate legal entity for which the primary government is financially accountable. The Cherokee County Department of Public Health, the Cherokee County Development Authority, the Development Authority of Cherokee County, the Sequoyah and Regional Library System are all included as discretely presented component units in the financial statements.

# **Local Economy**

# **INDUSTRY MIX**

Cherokee County's Industry mix is: 69% Services, 16% Goods, and 15% Government.

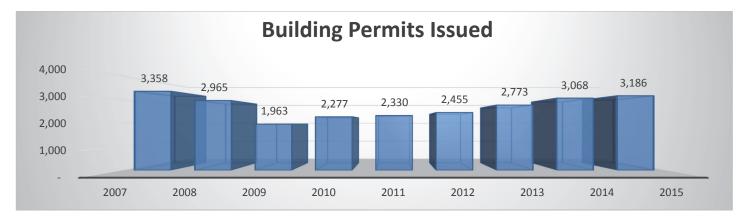

The industry mix was relatively unchanged between 2014 and 2015. Over several years, the most significant change Cherokee County has experienced in its industry mix is the decline in the construction business. Between 2000 and 2014, Cherokee's population grew 59%, which created significant construction opportunities. Near the height of Cherokee's growth in 2008, the construction industry represented 13.9% of the mix; however, in 2015 it was only 7.5%.

# **BUILDING PERMITS**

Fortunately, construction shows signs of improvement as building permits increased for the fifth consecutive year. While the County's peak was 3,358 issued in 2007, and dropped to a low of 1,963 in 2009, the number has increased steadily each year, topping out at 3,186 in 2015. We believe this is a sign of economic recovery and we will again experience positive growth and a return of construction jobs. In addition, new developments in the county provide

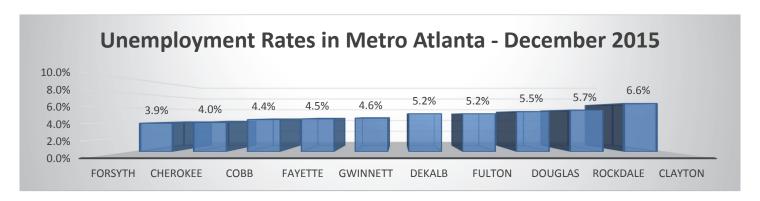

construction jobs in the short term, which generate new operational jobs and more visitors (driving more sales tax dollars and new property tax assessments), in the long term.

# **UNEMPLOYMENT**

At December 2015, Cherokee County's jobless rate was 4%; this was tied as the lowest in the metro-Atlanta region. The statewide unemployment rate was 5%. This is an improvement for both Cherokee and the state of Georgia; Cherokee County was 5.3% in 2014 and state-wide the rate was 6.9%.

# **TAX DIGEST**

Between 2003 - 2008, our Tax Digest increased each year by double-digit percentages. However, like most counties, Cherokee County was negatively impacted by the downturn in the economy beginning in 2008, and by 2012 our Tax Digest had decreased 23% as compared to the 2008 peak. Fortunately, our 2015 Tax Digest increased 6.1%, of which 1.2% was new growth. We anticipate the 2016 Digest will increase approximately 5% in total, including 2.5% new growth.

# **RECENT DEVELOPMENT**

# **Cherokee County Film Activity**

Cherokee County had 55 different film projects over the course of the 2015 year. Highlights for the year were three major films filmed and produced in the county. *Mena* due for release in January 2017 starring Tom Cruise was filmed in Ball Ground, this film was estimated to bring in close to \$400k of direct economic impact to the area. The other two films were set in Canton, one starring Michael Keaton in a film called *The Founder* was shot in several locations downtown, due for release in 2016. The other was Tyler Perry's *The Haves and The Have Nots* with shooting taking place on Main Street. The other projects were TV shows, commercials and short films. The film activity and unique character of our cities has helped to draw in tourism to the state and has allowed Cherokee County to rank 11<sup>th</sup> in Georgia for tourism expenditures.

# Thyssen Krupp Materials NA, Inc. (Cherokee 75 Office Park)

ThyssenKrupp Materials NA, Inc., a German company which provides solutions to business for materials management and industrial services. The company focuses on value-added processing and distribution of a full line of Aluminum, copper, brass, specialty metals, steel, and plastics products. Supply chain management, logistics, business process solutions and industrial services are among the services provided to customers. ThyssenKrupp is investing \$17.2 million in Cherokee County and will lease approximately 150,000 square feet of the new Cherokee 75 Office Park. ThyssenKrupp Materials estimates it will create approximately 100 jobs with an average wage of \$50k per year.

# Jaipur Rugs (Cherokee 75 Office Park)

Jaipur Rugs, is one of India's largest manufacturers of hand knotted rugs. Jaipur Rugs has continued a rich heritage of designing rugs and pillows for homes in more than 40 countries around the world. Jaipur Rugs is investing \$11.3 million in Cherokee County and will lease approximately 170,000 square feet of the new Cherokee 75 Office Park. Jaipur Rugs estimates it will create approximately 100 jobs with an average wage of \$52k per year.

# The Outlet Shoppes at Atlanta

The Outlet Shoppes at Atlanta has been so successful that Horizon Group Properties invested an additional \$5.5m to build out and lease their second phase, which added 33,000 square feet in front of the mall. The additional space created the following new stores; GAP, Banana Republic, Eddie Bauer, The Limited and soon to open 50 East Shoes. The Outlet expansion is estimated to provide an additional 115 new jobs for Cherokee County.

# **Cherokee Regional Airport**

The Cherokee County Regional Airport recently expanded to over 5,000 linear feet and is able to accommodate larger aircraft and corporate jets. The airport terminal is a luxurious location for flight crews to relax and rest between flights. The Cherokee County Airport Authority purchased 17 acres to accommodate seven additional hangars and recently completed construction of the pad to accommodate a new maintenance hangar.

This \$34 million project was awarded the General Aviation Project of the Year by the Georgia Airports Association, recognizing the airport helps support the economic development demands of Cherokee County and the region.

# **New Northside Hospital Medical Facility**

In order to address capacity constraints caused by the growing population, Northside Hospital is constructing a new hospital on 300 acres (with plans to relocate its current facility) near I-575 and GA Hwy 20. The new site will have excellent visibility from major roads and thoroughfares, and there will be ample room for further expansion as the community's needs grow.

The new state-of-the-art, \$250 million, 84-bed facility is expected to open in mid-2017 and create hundreds of new healthcare and office jobs in the county.

# **New and Expanding Businesses**

# **Inalfa Roof Systems**

Inalfa Roof Systems is one of the world's largest suppliers and manufacturers of vehicle roof systems to OEM's in the automotive industry. Inalfa opened their first location in January of 2014 and began construction of their second location and regional headquarters in Cherokee County. Inalfa is making an investment of \$20.7 million in the new Cherokee 75 business park and is expecting to add approximately 300 jobs over three years when construction is complete.

# **LAT Apparel**

LAT Apparel, a logo T-Shirt company that has been in operation for more than 30 years, is investing \$9.6 million to build their corporate headquarters in Cherokee County. The building is 166,000 square feet and should be completed in 2016. LAT Apparel estimates they will be able to add approximately 30 additional jobs when completed.

# **Universal Alloy Corporation**

Universal Alloy Corporation, a leading provider of aerospace aluminum extrusions, continues to grow in Cherokee County. The longtime Cherokee County business recently purchased another 44 acres in Ball Ground. Universal Alloy was recently honored as one of eight companies worldwide to be recognized and awarded Airbus's BEST PERFORMER award. On April 16, 2015, Boeing presented Universal Alloy Corporation with a Supplier of the Year award.

Additional industry expansions included Piolax USA, a leading supplier of plastics and metal fastening products technology is expanding 82k square feet and investing \$15 million in Canton which should add 30 additional jobs.

The Cherokee office of Economic Development interviewed 31 industries in Cherokee County, the industries surveyed reported the following:

- 60% average job growth
- 87% increased sales
- 87% plan to expand in the next three years
- Creating a potential for 740 jobs and \$122M in investment for Cherokee County.

# Profile of County Population 2014

# Change in Fiscal Year

In 2012 the County converted from a calendar year-end to a September 30 year-end. We believe changing the fiscal year was important for transparency and proper budget management. Having a December 31 fiscal year-end reflected, on paper, a "cash rich" appearance since the majority of our property tax revenue is collected when bills are due December 20th. However, the fact that the cash collected in December of one year is used to fund the services and operations of the following year was not always clear to the reader of financial statements. In fact, a reader may have questioned whether the millage tax rate was too high since such significant cash balances were reported. Changing the fiscal year-end to September 30 allows the County to better represent its available cash.

In addition, state law requires budgets to be balanced for each fiscal year. But when such a large portion of revenue is not received until the very end of the year, should revenue be significantly less than budget, it may be too late for County management to implement budget changes and avoid an operating deficit. Beginning in FY2013 we receive property taxes near the beginning of our fiscal year; therefore, if revenue is below projections the County can implement changes earlier and avoid operating deficits.

Changing the fiscal year also altered the timing of our annual budget process so the Finance Team has more complete information for the following year's budget requirements before the millage rate is set in July.

# **Current Year Results**

# Current Funding Sources (Revenues, Interfund Transfers, Asset Sales, and Other Financing Sources – Excludes Reserves)

Our reported total current funding sources were greater than budget by \$2.0 million. Many funds exceeded the budget, but the most significant drivers of this increase came from the SPLOST 2012 Fund \$2.4 million and the Unincorporated County Services Fund \$1.4 million with a reduction of \$1.8 million that was budgeted for in RRDA for the sale of the old Jones Administration Building.

- The SPLOST 2012 Fund performed better than budget primarily due to sales tax receipts which exceeded the budget by \$2.4 million. This is driven by a combination of the Outlet Mall, Cabela's, and existing stores seeing higher sales. Please see our discussion of Sales Taxes under Long-Term Financial Planning later in this report.
- The Unincorporated County Services Fund benefitted from increased insurance premium tax which was \$1.0 million better than budget, and an increase in building permit revenue which exceeded budget by \$0.7 million. There was an adjustment of miscellaneous revenue to of (\$0.4) million due to land sale in 2014. We are especially pleased by the building permit revenue results because it is a sign of economic recovery for the County.

# <u>Funding Uses (Expenditures + Transfers Out to Other Funds)</u>

Due to a very rigorous budget process and commitment from every County employee, we were able to report Countywide funding uses \$32.3 million less than budget; we adopted a budget of \$208.8 million and only incurred \$176.5 million. This positive variance was primarily driven by lower capital spending due to project timing \$26 million. For the General Fund, funding uses were less than budget by \$2.9 million. This positive variance was driven primarily by the fact that the County did not complete the sale of the Old Administration Building in either 2014 or 2015, which was budgeted to be a transfer \$1.8 million to the RRDA Fund after sale. The County continues to manage vacant positions, keep an eye on maintenance/replacement operating expenditures to manage costs.

The chart on the following page reflects budget performance by fund. Please note that while some funds have negative revenue variances, in most cases these were offset by positive expenditure variances. In cases where expenditures were not reduced to match the revenue flow the fund had reserves to utilize. The last column of the chart reflects the final net impact to the fund and is most important to understanding the county's use and conservation of financial resources.

# CHEROKEE COUNTY BOARD OF COMMISSIONERS 2015 RESULTS BY FUND

# Long-Term Financial Planning

While the county experienced positive growth from 2000 – 2008, like most counties, Cherokee County was negatively impacted by the downturn in the economy beginning in 2008. Although our revenue sources were already diversified, nearly all of these sources declined putting significant pressure on the County Budget. Fortunately, we believe we see signs of economic recovery in Cherokee County.

# **Property Taxes**

The 2015 Tax Digest increased 6.1%, of which 1.2% was new growth. In July 2015, the county rolled back all but .008% of our M&O rate. The Board of Commissioners were concerned about the recent difficulties experienced in funding for Public Safety and healthcare costs. Even so, Cherokee County has the third lowest combined millage rate (9.900) in the metro-Atlanta area. In addition, 156 counties have an additional 1 cent sales tax (referred to as LOST or HOST sales tax) which is used to lower county millage rates. If Cherokee County had such a tax, we estimate our combined millage rate would be  $\sim$  6.000, which would be within the 10 lowest of all Georgia counties. It is important to note that the current 10 lowest counties have average populations of  $\sim$  40,000 and do not provide the same services that Cherokee County provides.

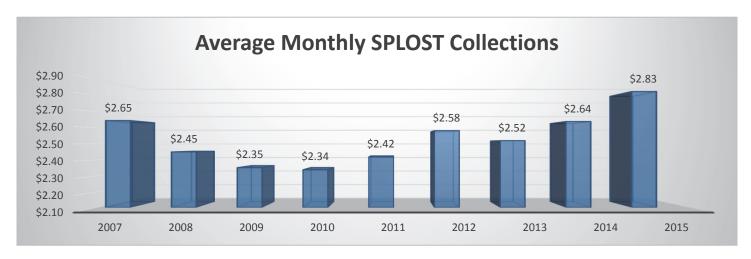

\* Indicates Counties without additional 1 cent sales tax (LOST or HOST), Counties with this tax must reduce property tax rates.

# **Sales Taxes**

SPLOST taxes peaked in 2007 at \$31.7 million. By 2010 the total had dropped to \$28.1 million, but fortunately since then we have seen higher collections signaling economic recovery. In 2015 we increased to \$33.9M in collections. This is especially impressive because our SPLOST tax collections have been negatively impacted by the new TAVT (Title Ad Valorem Tax) fee which was implemented in 2013 and generated new revenue for our General Fund, but eliminated sales taxes on vehicle sales. We estimate the county lost approximately \$2.0M in sales taxes due to this change, but this

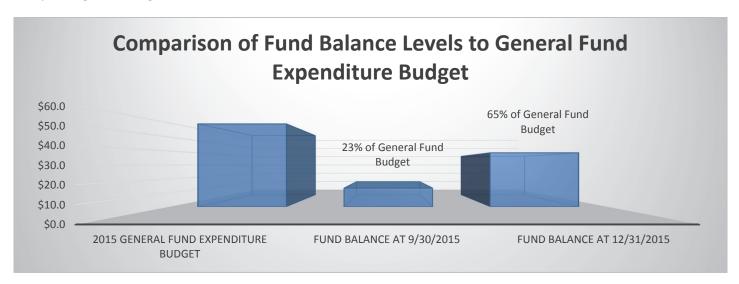

variance has been recovered by the Outlet Shoppes of Atlanta, Cabela's, and a general increase in all retail sales. Therefore, our operational funds are benefitting from the TAVT fee, and our SPLOST has surpassed the 2007 peak. In addition, given the new business developments discussed earlier, we believe Cherokee County's financial sustainability is promising.

# **Fund Balance**

Counties that report on a calendar fiscal year will have much higher fund balances than counties that do not. This is because property taxes in Georgia are received in November/December, therefore inflating fund balances for that point in time. If our fund balances were measured at December 31, 2014 after a significant portion of property taxes had been received, we would report much higher fund balances. When compared to annual expenditures, our percentages are quite high, even higher than recommended levels.

# OTHER INFORMATION

*Independent Audit* Cherokee County requires an annual independent audit of County financial records by a certified public accountant selected by the Board of Commissioners. The accounting firm of Mauldin & Jenkins, LLC was selected to fulfill this requirement, and a copy of the auditor's report on the financial statements is included in the financial section of this report.

**Single Audit** As a recipient of federal and state financial assistance, the County also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation for weaknesses by management and internal staff.

As part of the County's annual single audit, required in conformity with provisions of the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget circular A-133, *Audits of State and Local Governments and Nonprofit Organizations*, tests are made to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs, as well as to determine that the County has complied with applicable laws and regulations.

Budgetary Controls The County maintains budgetary controls to ensure compliance with legal provisions of the annual appropriated budget approved by the Board of Commissioners. Activities of the general fund, special revenue funds and capital project funds are included in the annual appropriated budget. The official level of county budget control (the level on which expenditures may not legally exceed appropriations) for each legally adopted annual operating budget is the department, function, or activity within each fund. Administrative transfers of appropriations within a department may be authorized by the County Manager to meet unforeseen needs without Commission actions. Transfers of appropriations outside departments or functions are reviewed with the Board of Commissioners prior to approval. The County's budget procedures, together with such procedures for discretely presented component units, are more fully explained in the accompanying notes to the financial statements. The County maintains an encumbrance accounting system as one means of accomplishing budgetary control. Encumbered amounts at year end are carried forward to the ensuing year's budget on a case by case basis.

Acknowledgments The preparation of the report could not have been accomplished without the efficient and dedicated efforts of the staff of the Finance Department, the auditors for the County and its component units, and the cooperation of the various elected officials and county management. In addition, some content and photos have been reproduced courtesy of Cherokee County Chamber of Commerce, Advertising Dynamics, Inc., and the Cherokee County Historical Society. My sincere appreciation is extended to each individual for the contributions made in the preparation of this report.

Respectfully submitted,

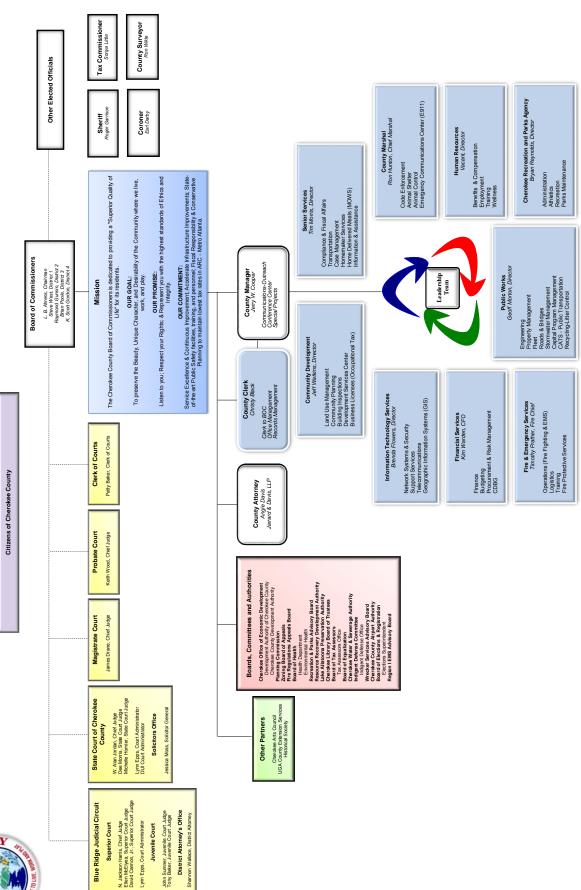

Kimberly Warden

Executive Director/CEO

# INDEPENDENT AUDITORS' REPORT

Board of Commissioners of Cherokee County, Georgia Canton, Georgia

# **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of **Cherokee County, Georgia** (the "County"), as of and for year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise Cherokee County, Georgia's basic financial statements as listed in the table of contents.

# Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

# Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Sequoyah Regional Library System or the Cherokee County Department of Public Health, which represent 59% percent, 14% percent, and 81% percent, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Sequoyah Regional Library System or the Cherokee County Department of Public Health, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# **Opinions**

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Cherokee County, Georgia, as of September 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison schedules for the General Fund and Fire District Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

# Emphasis of Matter

As discussed in Notes 10 and 16, the County implemented Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB No. 27, as well as Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment for GASB No. 68, as of October 1, 2014. These standards significantly changed the accounting for the County's net pension liability and related disclosures. Our opinions are not modified with respect to this matter.

# **Other Matters**

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (pages 5 through 15), the schedule of funding progress (page 72), the schedule of changes in the County's net pension liability and related ratios (page 73), the schedule of County contributions (page 74), the schedule of employer's net pension liability - Cherokee County Board of Health (page 75), the schedule of employer's pension contributions - Cherokee County Board of Health (page 76), the schedule of employer's net pension liability - Sequoyah Regional Library System (page 77), and the schedule of employer's pension contributions - Sequoyah Regional Library System (page 78) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Cherokee County, Georgia's basic financial statements. The combining and individual nonmajor fund financial statements and schedules, the schedules of expenditures of special purpose local option sales tax proceeds, as required by the Official Code of Georgia 48-8-121, the introductory and the statistical sections, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules and the schedules of expenditures of special purpose local option sales tax proceeds (the "supplementary information") are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and the statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 28, 2016 on our consideration of Cherokee County, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Cherokee County, Georgia's internal control over financial reporting and compliance.

Manddin & Jenlins, LLC

# Management's Discussion and Analysis

As management of Cherokee County (the County or Government), we offer readers of our financial statements this narrative overview and analysis of the financial activities of Cherokee County for the fiscal year ended September 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our Transmittal Letter.

# **FINANCIAL HIGHLIGHTS**

- ❖ Assets & Liabilities: The total assets and deferred outflows of Cherokee County were \$1,135,278,948, which exceeded its liabilities and deferred inflows of \$152,631,751. In other words, the assets and deferred outflows were more than seven times greater than liabilities and deferred inflows.
- ❖ Net Position: Net position is defined as Total Assets + Deferred Outflows Total Liabilities Deferred Inflows. The primary government's total net position decreased 1.5% from \$997,749,829 (restated) to \$982,647,197. The main driver for the decrease was excess of depreciation over new additions for the capital assets and the reporting of a loss related to the lease purchase of the recycling center.
- ❖ Fund Balances: As of September 30, 2015 the fiscal year-end, Cherokee County's governmental funds reported combined ending fund balances of \$105,379,936. The 2014 fiscal year-end reported a balance of \$93,914,870. This is a net increase of \$11,465,066, driven mainly by capital funds and by increases in the General Fund and the Unincorporated County Fund.
  - Since the County follows a pay-as-you-go philosophy in our SPLOST 2012 Fund, the County spent significantly less than collected in sales tax revenue which increased the fund balance by \$9,764,550. This balance will be carried over to future years and expended according to the project plan. In addition, all voter approved Parks, Recreation, and Greenspace traunches have been issued, so this year's spending decreased the fund balance by \$4,148,235. Like the SPLOST 2012 Fund, this balance will carry over to future years and be expended according to the project plan.
  - Of the total combined fund balances, \$13,290,942 or 12.6%, is available for spending at the Government's discretion (unassigned fund balances). This is a \$2,260,818 improvement over 2014, when only \$11,030,124 was unassigned.
  - Cherokee County's General Fund Balance was \$13,386,259. Of this, \$13,293,833 or 99.3% is unassigned and is available for spending at the Government's discretion. Unassigned reserves continue to increase over 2014 when \$11,037,776 was unassigned.
  - Unincorporated County Services Fund Balance increased \$2,344,508 due to growth in insurance premium tax and issuance of business permits. A sign of population and economic growth for the County.
- ❖ **Debt:** Bonds Payable decreased from \$91,180,000 to \$86,765,000. This represents a decrease of \$4,415,000 (4.8%). This decrease is comprised of:
  - o a decrease in the balance of the 2009, 2010, 2012 and 2014 Parks, Recreation and Greenspace Bonds due to scheduled payments of bond principal totaling \$4,030,000, and
  - o the scheduled principal payment of \$385,000 for the RRDA Bonds.

# **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis are intended to serve as an introduction to Cherokee County's basic financial statements. Cherokee County's basic financial statements are comprised of three components: 1) Government-wide financial statements, 2) Fund financial statements, and 3) Notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

## 1. Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of Cherokee County's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of Cherokee County's assets, deferred outflows, deferred inflows, and liabilities, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Cherokee County is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of Cherokee County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of Cherokee County include general government, public safety, judicial services, health and welfare, highways and streets, culture and recreation and housing and development. The business-type activities of Cherokee County include Emergency Medical Services (ambulance service), and the Cherokee Conference Center.

The government-wide financial statements include not only Cherokee County itself (known as the *primary government*), but also the Cherokee County Board of Health, Cherokee County Development Authority, Development Authority of Cherokee County, and Sequoyah Regional Library, all legally separate entities, for which Cherokee County is financially accountable. Financial information for these *component units* is reported separately from the financial information presented for the primary government itself.

Please reference the table of contents for the location of the government-wide financial statements in this report.

# 2. Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Cherokee County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of Cherokee County can be divided into three categories: A. Governmental funds, B. Proprietary funds, and C. Fiduciary funds.

# A. Definition of Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the governmental-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund

balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Cherokee County maintains 28 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the four major funds: General Fund, Fire District Fund, SPLOST 2012 Fund (Special Purpose Local Option Sales Tax), and the Recreation Bond Fund. Data for the other 24 governmental funds are combined into a single, aggregated presentation, titled "Other Governmental Funds." Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

Cherokee County adopts an annual appropriated budget for its General Fund, as well as all special revenue, proprietary and all other governmental fund types, including capital projects. A budgetary comparison statement has been provided for all of these funds to demonstrate compliance with this budget.

Please reference the table of contents for the location of the basic governmental fund financial statements in this report.

# **B.** Definition of Proprietary Funds

Cherokee County maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. Cherokee County uses enterprise funds to account for its Emergency Medical Services and Cherokee Conference Center funds. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among Cherokee County's various functions. Cherokee County uses internal service funds to account for its fleet of vehicles and for its employee benefits claims. Because both of these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Emergency Medical Services and Cherokee Conference Center funds. Conversely, both internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements, titled "Governmental Activities – Internal Service Funds." Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report.

Please reference the table of contents for the location of the basic proprietary fund financial statements in this report.

# C. Definition of Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support Cherokee County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Please reference the table of contents for the location of the basic fiduciary fund financial statements in this report.

## D. New Fund Balance Procedures Under GASB Statement 54

Prior to 2011 fund balances were designated as either *reserved* or *unreserved*. In accordance with the governmental accounting standard, GASB Statement 54, which became effective in 2011, governmental entities are now required to present fund balance in the following five categories:

- i. Nonspendable Fund Balance non-cash assets such as inventories or prepaid items.
- ii. Restricted Fund Balance funds legally restricted for specific purposes, such as grant funds.
- iii. Committed Fund Balance amounts that can only be used for specific purposes pursuant to a formal resolution of the Board of Commissioners.
- iv. Assigned Fund Balance amounts intended to be used for specific purposes, either by the Board of Commissioners or the Board's delegate. (For Cherokee County the Board delegated authority to assign balances to the County Manager).
- v. Unassigned Fund Balance residual spendable fund balance after subtracting all above amounts.

## 3. Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

# 4. Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning Cherokee County's progress in funding its obligation to provide pension benefits and OPEB benefits to its employees. Effective October 1, 2014, the County implemented the provisions of GASB Statement No. 68 *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*, which significantly changed the County's accounting for pension amounts by requiring that the total net pension liability and the deferred inflows and outflows related to the net pension liability be reported in the government-wide financial statements as an adjustment to opening and ending fund balance.

Please reference the table of contents for the location of the required supplementary information in this report.

The combining statements referred to earlier in connection with non-major governmental funds and internal service funds are presented immediately following the required supplementary information on pensions.

# **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

## 1. Statement of Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Cherokee County, assets and deferred outflows (excluding component units) exceeded liabilities and deferred inflows by \$982,647,197 at the close of the most recent fiscal year. Said another way, Cherokee County assets and deferred outflows are almost seven times greater than its liabilities and deferred inflows.

# Summary of Assets, Deferred Outflows/Inflows of Resources, Liabilities, and Net Position

	Governmental Activities			Business-type Activities				Total			
		2015		2014 (restated)	2015	20	14 (restated)		2015		2014 (restated)

Total Net Position	\$	980,529,426	\$	996,673,637	\$ 2,117,771	\$	1,076,192	\$	982,647,197	\$	997,749,829

By far the largest portion of Cherokee County's net position, \$945,366,179 or 96.2%, reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment) less any related debt used to acquire those assets that is still outstanding. Cherokee County uses the capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although Cherokee County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

# 2. Statement of Activities

As compared to 2014, revenue from governmental activities increased \$18,968,601 or 12.4%. Significant drivers of this increase are related to property taxes \$5,376,178, capital grants \$3,325,280, sales taxes \$2,290,597, and other revenues \$4,864,935. The County did not complete a full rollback of millage rates in 2014, which along with 8.3% growth in the 2014 digest, increased property tax revenue. The County uses the prior year's property tax to fund the current year operations as explained in the introductory session entitled Change in Fiscal Year. The County did not complete a full rollback because all public safety employees were granted a 10% salary increase to improve recruitment and retention, effective October 1, 2014. Capital grants went up based on donated assets, which are mainly roads and right of ways given to the County to maintain as developments are built. Sales taxes were up this year due to increased economic activity in Cherokee County for retail outlets. Other revenues were up due to sales of land parcels used to pay down related debt.

					,								

As compared to 2014 governmental activities expenses increased \$10,413,981 or 5.9%. The main drivers of this increase were from General Government which increased \$4,558,706 and Public Works which increased \$4,090,913. These increases were due to:

General Government increase of \$4,558,706 is primarily due to:

- reporting the loss on the disposal of the land and building which was leased through a capital lease to a third party to operate the recycling facility.
- increased health care claims and expenses.

In addition, Public Works increase of \$4,090,913 was primarily due to:

- more SPLOST 2012 spending was incurred on Public Works projects than prior year (this is simply based on the six-year project plan and can vary each year depending on project timing).
- a 3% salary increase granted to all employees and corresponding benefits.

# **FUND FINANCIAL STATEMENT ANALYSIS**

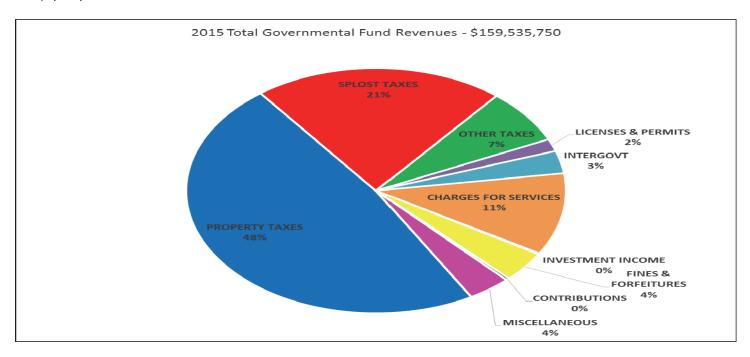

As noted earlier, Cherokee County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of Cherokee County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing Cherokee County's financing

requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

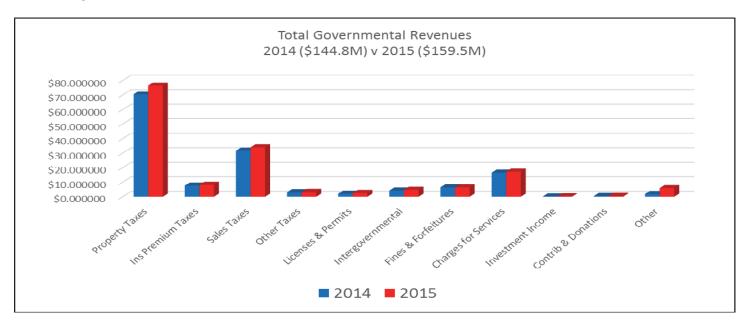

# 1. Revenues

Revenues for Cherokee County's governmental funds in 2015 totaled \$159,535,750.

The majority of funding was generated from taxes at \$121,946,651 which is comprised of property taxes of \$76,494,746, sales taxes of \$33,980,669, insurance premium taxes of \$8,166,299, and other miscellaneous taxes of \$3,304,937.

Total revenues increased \$14,774,063 from \$144,761,687 in 2014 to \$159,535,750 in 2015. There were several factors contributing to this net variance:

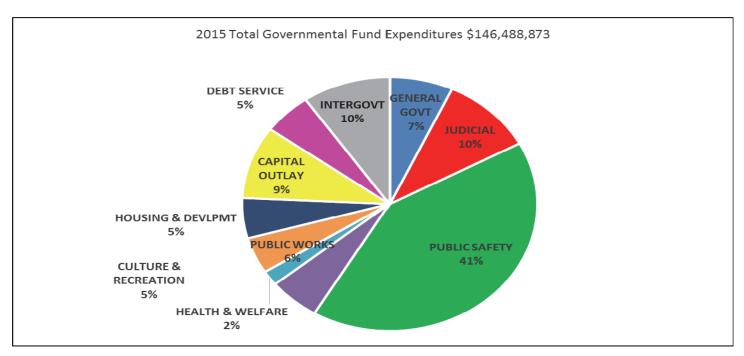

• Revenue from Property Taxes increased \$5,978,953. As previously explained, the County did not complete a full rollback of millage rates in 2014 or 2015, which along with 8.3% growth in the 2014 digest, increased property

tax revenue. The main reason the County did not complete a full rollback is because public safety employees were granted a 10% salary increase to improve recruitment and retention effective October 1, 2014.

- Sales taxes increased \$2,290,597 from \$31,690,072 in 2014 to \$33,980,669 in 2015. With the implementation of the new TAVT tax in 2013, vehicle sales no longer generate sales tax, causing a drain on our sales tax dollars. However, sales tax had been steadily increasing before the implementation of the new TAVT tax. In addition, in July 2013 the Outlet Shoppes of Atlanta opened in Woodstock, and Cabela's opened in August 2014. While we have lost sales taxes due to the new TAVT, this is being more than offset by sales taxes generated from the new stores.
- Intergovernmental revenue increased from \$4,256,449 in 2014 to \$4,754,515 in 2015. This modest increase is due to an increase in CDBG (Community Development Block Grant) revenue.
- Miscellaneous revenue increased from \$1,873,382 to \$5,875,812. The Cherokee County Development Authority sold land from the Cherokee 75 Park and gave \$3,532,089 back to the County.

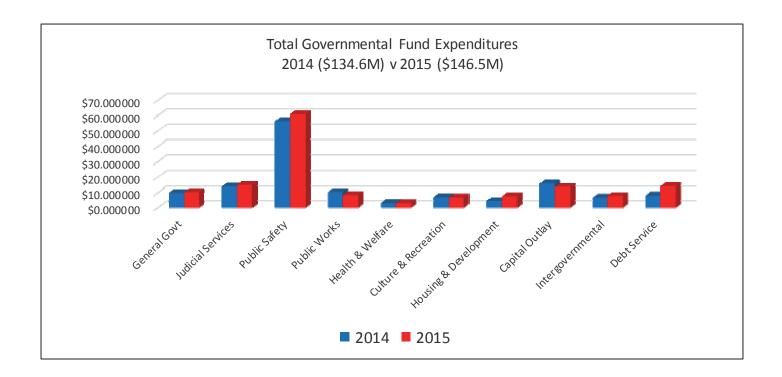

# 2. Expenditures

Governmental fund expenditures totaled \$146,488,873. Of this total, 51.6% was required to support public safety and judicial services.

As compared to 2014, governmental fund expenditures increased \$11,890,853, or approximately 8.8%. The primary drivers of the increases were as follows:

- Public Safety employees received a 10% increase effective October 1, 2014 along with benefits \$3,698,822.
- Judicial Services increased \$1,137,310 related 3% increase in salaries and benefits of \$463,847, professional services fees of \$308,589, and other equipment needed to update Justice Center \$284,446.
- Unincorporated County Services Fund paid \$3,032,089 on the loan for Cherokee County Development Authority after proceeds from the sale of land parcels covered by the loan.
- Housing and Development increased \$3,940,858 for airport authority, while other areas came in under budget.

#### 3. Fund Balance

As of the end of the current fiscal year, Cherokee County's governmental funds reported combined ending fund balances of \$105,379,936, a net increase of \$11,465,066 from the prior year. Half of this increase was driven by capital funds while the other half was mainly due to increases in the General Fund and Unincorporated County Services Fund. The SPLOST 2012 Fund added \$9,764,550 to the fund balance. This was accomplished because the SPLOST receipts continued to increase over 2015 while expenditures were down. However, the Parks Bond Fund reduced fund balance \$4,148,235 as all the bonds that were approved by the voters have been issued and the fund balance will continue to be depleted as the parks are built. The General Fund balance increase of \$2,239,224 was generally due to an increase in property tax revenue, however, most revenue streams saw increases. The Other Governmental Funds' fund balance increased \$2,940,479, primarily due to increases in both the insurance premium tax and business permits. Overall, fund balance rose as many departments spent less than in 2015 versus 2014.

The General Fund is the chief operating fund of Cherokee County. At the end of the current fiscal year, the total fund balance of the General Fund was \$13,386,259 of which \$13,293,833, or 99.3%, represents the *unassigned* portion. As a measure of the General Fund's liquidity, it is useful to compare the unassigned fund balance to total funding uses; the unassigned fund balance represents 21.0% of General Fund expenditures and transfers to other funds.

During the current fiscal year, Cherokee County's General Fund balance increased by \$2,239,224. This was mainly achieved by revenues exceeding budget by \$1,562,476 and tight budget management which delivered expenditures \$1,124,519 under budget.

The Fire District Fund is another major fund of the County which is primarily supported by property taxes. At year-end, the total fund balance of this fund was \$5,730,913, which was \$669,048 higher than the 2014 balance. The increase was primarily driven by the Department's tight control over expenditures. The Fund's expenditures were \$862,124 under budget and the fund was expected to use reserves.

The SPLOST 2012 Fund was established in 2012 to account for collections of the renewed SPLOST Tax beginning in July 2012. At year end, the total fund balance of the SPLOST 2012 Fund had grown \$9,764,550 to \$37,459,576 – all funds are classified as restricted or nonspendable. Capital project spending is dependent on the progress of construction which is influenced by project management, weather, approvals, etc. As the fund collects sales tax revenue each month, if it is not spent in the current year, the balance will accumulate and carryforward so the projects will be completed in future years.

The Recreation Bond Fund accounts for the voter approved bond proceeds used to invest in recreation, parks, and greenspace. The fund balance at year-end was \$20,056,596, which is \$4,148,235 less than 2014. This decrease was expected and budgeted accordingly as we completed or made significant progress on projects. The fund balance is restricted only to the approved projects included in the 2008 referendum.

#### 4. General Fund Budgetary Highlights

The original budget for the General Fund expenditures was \$58,611,358, but was amended by \$797,353 to \$59,408,711. The primary reason for the amendment was related to increases in judicial services to handle increased case volume, especially in indigent defense and juvenile court. In any case, while the budget was amended to be increased, the actual expenditures totaled \$58,284,192 – which is \$1,124,519 less than the final amended budget, but also \$327,166 less than the original budget.

Readers can review variances for each department in the Budget and Actual Schedules; however, this positive variance stems from personnel attrition and vacancies throughout the organization, as well as tight management of other operating costs.

#### **CAPITAL ASSET AND DEBT ANALYSIS**

#### 1. Capital Assets

As of September 30, 2015, Cherokee County's investment in capital assets for its governmental activities totaled \$1,009,939,067 (net of accumulated depreciation). This investment in capital assets includes land, buildings and systems, improvements, machinery and equipment, vehicles, roads, highways, and bridges. The total of these capital assets decreased \$32,091,901, or 3.1%, as compared to fiscal year 2014. This is not unusual; typically every year the capital assets decrease because the annual depreciation expense is greater than new purchases and construction. However, this year the County also signed a lease purchase agreement for the Resource Recover and Development Authority landfill property and equipment. This removed \$5,961,446 from our assets.

Due to budget constraints, major capital asset additions were limited mainly to SPLOST and Parks Bond funding and included the following:

- New Sheriff vehicles and Marshal vehicles
- Four new fire pumper trucks and a ladder truck
- Improvements at the Justice Center
- Machinery and Vehicles for Public Works
- Various road improvements
- Various Parks Bond construction including both new development and renovations

Additional information on Cherokee County's capital assets can be found in Note 6 of this report.

#### 2. Long-Term Debt

At the end of the current fiscal year, Cherokee County had total long term bonded debt outstanding of \$86,765,000.

Of this debt:

- \$16,125,000 is debt issued by the Resource Recovery Development Authority (RRDA), a blended component unit of the County. When this debt was issued, it was expected to be covered by the third party operator and lessee of the recycling facility; however, it was guaranteed by the County's pledge of up to 1 mil to cover the annual debt service payments if the lessee defaulted. In 2012 the County was forced to cancel the lease due to the operator's inability to meet its obligations. The County has not been required to increase the millage rate to cover the debt service. However, if it did, the required increase equivalent to the annual debt service would be only 0.15 mils. During 2015 the County signed a contract with Chris Cowart Properties for a lease-purchase of the property. The County now receive \$142,244 per year for the property.
- \$70,640,000 is supported by a separate bond millage rate of 0.744 mills. This debt was approved by voters in 2008 for investment in parks, recreation, and greenspace.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10% of its total assessed valuation. The current debt limitation for Cherokee County is \$852,412,982; with outstanding debt of \$86,765,000, the County is significantly under the legal limit (only 1% rather than 10%).

Cherokee County's long term bonded debt decreased \$4,415,000 during the current fiscal year. This is the amount of debt that was retired. The County holds a rating of "Aa2" from Moody's Rating Agency and a "AA+" from Standard & Poor's Rating agency.

Additional information on Cherokee County's long-term debt can be found in Note 8 of this report.

#### STATUS OF CHEROKEE COUNTY'S ECONOMY

- As of December 31, 2015, the unemployment rate for Cherokee County was 4.0%, which was lower than the state rate of 5.5%. This is a significant improvement to 2014 rates: Cherokee County 5.3% and the state 6.9%.
- Beginning in late 2008, the construction industry has suffered from the economic recession. This has impacted building permits in most counties. However, over the past years Cherokee County has experienced steady recovery in the issuance of building permits, which we believe is a sign of an improving economy. In 2007 the County issued 3,358 building permits, which dropped to 1,963 at our lowest point in 2009, but rebounded to an issuance of 3,186 permits in 2015.
- Sales tax revenues increased \$2,290,596 or 7% over 2014. We consider this extremely good news because the TAVT tax eliminated sales tax on motor vehicle purchases, therefore, we actually would have suffered a drop in revenues. Fortunately, the Outlet Shoppes of Atlanta and Cabela's have helped to drive increasing sales tax revenues for the County. We have highlighted an expansion of the Outlet Shoppes of Atlanta in our Transmittal Letter.

#### **REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of Cherokee County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Department, Cherokee County Board of Commissioners, 1130 Bluffs Parkway, Canton, Georgia, 30114.

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2015

Amounts reported for governmental activities in the statement of activities are different because:	
Net change in fund balances - total governmental funds	\$ 11,465,066
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense exceeded capital outlays, which are not reported in the governmental funds, in the current fiscal year.	(35,154,277)
The net effect of various miscellaneous transactions involving capital assets (i.e., donations, sales and trade-ins) is to increase net position.	3,090,619
The current fiscal year decrease to the net OPEB liability decreases net expenses of the functions on the government wide statements.	61,659
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(392,949)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on the net position. This amount is the effect of these differences in the treatment of the repayment of the principal of long-term debt.	4,440,062
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	1,455,714
Internal service funds are used by management to charge costs of various services and benefits to individual funds. The net revenue (expense) of certain activities of internal service funds is reported with governmental activities.	 (1,110,105)
Change in net position - governmental activities	\$ (16,144,211)

## CHEROKEE COUNTY, GEORGIA NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2015

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Reporting Entity

The County is a political subdivision of the State of Georgia governed by the Commission Chairman and a four-member Board of Commissioners. The financial statements of the County and its discretely presented component units, the Development Authority of Cherokee County, the Cherokee County Development Authority, the Sequoyah Regional Library, and the Cherokee County Department of Public Health have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the County are described below.

As required by accounting principles generally accepted in the United States of America, the financial statements of the reporting entity include those of the County (the primary government) and its component units. The component units discussed below are included in the County's reporting entity because of the significance of their operational and financial relationships with the County. In conformity with accounting principles generally accepted in the United States of America, as set forth in Governmental Accounting Standards Board Statement No. 61, "The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34," the component units' financial statements have been included as discretely presented component units. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the County. Based upon the application of these criteria, the following is a brief review of each component unit addressed in defining the County's reporting entity.

The **Development Authority of Cherokee County** (the "Development Authority") provides a means to issue industrial development bonds to develop and promote trade, commerce, industry and employment opportunities within Cherokee County. The Development Authority is frequently referred to as "the Cherokee County Office of Economic Development" and exists to promote economic development in the County by working with existing industries to expand as well as by recruiting additional business to the community. The Development Authority was created by resolution of the Board of Commissioners. All board members of the Development Authority are appointed by the County. The Development Authority is dependent on the County for its operational costs. The Development Authority is presented as a governmental fund type component unit. There are no separately issued financial statements available for the Development Authority of Cherokee County.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### A. Reporting Entity (Continued)

The **Cherokee County Development Authority** (the "CCDA") provides a means to issue industrial development bonds to develop and promote trade, commerce, industry and employment opportunities within Cherokee County. The CCDA was established by State constitution. Cherokee County does not appoint a majority of the Board; however, the CCDA does require the approval of Cherokee County in order to issue bonded debt. The Development Authority is dependent on the County to service the debt service payments on their bonds. The CCDA is presented as a governmental fund type component unit. There are no separately issued financial statements available for the Cherokee County Development Authority.

The **Sequoyah Regional Library** (the "Library") provides library services to the citizens of Cherokee, Gilmer and Pickens Counties. During the fiscal year ended June 30, 2015 (the Library operates on a June 30 fiscal year end), the Library received \$1,897,786 from the County. The County appoints a majority of the Library's board members. The Library is presented as a governmental fund type component unit.

The Sequoyah Regional Library operates on a June 30 fiscal year end. The financial statements of the Sequoyah Regional Library were audited by other auditors, and a complete report can be obtained from the Sequoyah Regional Library, 116 Brown Industrial Parkway, Canton, Georgia 30114.

The Cherokee County Department of Public Health (the "Department of Public Health") provides health related services to residents of Cherokee County. Programs include disease screening, child health services, family planning, health services, and environmental health programs. The County appoints a voting majority of the board members of the Department of Public Health and provides significant funding to the Department of Public Health.

The Department of Public Health operates on a June 30 fiscal year end. The financial statements of the Department of Public Health were audited by other auditors, and a complete report can be obtained from the administrative offices of the Department of Public Health, 1219 Univeter Road, Canton, Georgia 30114.

A blended component unit, although a legally separate entity, is in substance part of the County's operations and so financial data from this unit is combined with the financial data of the primary government. The following is presented as a blended component unit.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### A. Reporting Entity (Continued)

The Resource Recovery Development Authority of Cherokee County (the "RR Development Authority") provides a means to issue industrial development bonds used to help develop and promote recycling opportunities within Cherokee County. The RR Development Authority is governed by a board comprised of four of the County's elected Commissioners and one additional public member. The County has guaranteed the bonds issued by the RR Development Authority with the County's millage rate. The RR Development Authority is presented as a blended governmental fund type component unit as the sole purpose was to finance a recycling center to be leased and operated by a third party and subsequently the County has assumed the debt service payments, as the third party operator has defaulted. There are no separately issued financial statements available for the RR Development Authority.

The Atlanta Regional Commission (the "ARC") is considered a joint venture based upon the criteria in GASB Statement No. 14, as amended by GASB Statement No. 61. Under Georgia law, the County, in conjunction with other cities and counties in the 10-county metropolitan Atlanta, Georgia area, is a member of the ARC. Membership in a Regional Commission is required by the O.C.G.A 50-8-34, which provides for the organization structure of the RDC in Georgia. The County paid dues in the amount of \$228,450 to the ARC for the fiscal year ended September 30, 2015. The Regional Commission Board membership includes the chief elected official of each county and municipality of the area. O.C.G.A 50-8-39.1 provides that the member governments are liable for any debts or obligations of a Regional Commission. Complete financial statements of the RDC may be obtained from the Atlanta Regional Commission, 40 Courtland Street, N.E., Atlanta, Georgia 30303.

#### B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the County. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (CONTINUED)

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and the fiduciary fund financial statements. Agency funds are custodial in nature and do not present results of operations or have a measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the fiscal year for which they are levied. Property taxes levied in September are for the next fiscal year beginning October 1. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers most revenues to be available if they are collected within 60 days of the end of the current fiscal year, however, grant revenues are considered to be available if they are collected within 180 days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, sales tax, intergovernmental grants, and investment income associated with the current fiscal year are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year. All other revenue items are considered to be measurable and available only when cash is received by the County.

In accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Non-exchange Transactions," the corresponding assets (receivables) in non-exchange transactions are recognized in the period in which the underlying exchange occurs, when an enforceable legal claim has arisen, when all eligibility requirements have been met, or when resources are received, depending on the revenue source.

In accordance with GASB Statement No. 34, major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The County reports the following major governmental funds:

The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (CONTINUED)

# C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The *Fire District Fund* is used to account for monies received from a restricted property tax levy for the operations of the fire departments within the County.

The *Special Purpose Local Option Sales Tax ("SPLOST") 2012 Fund* is used to account for proceeds of a special 1% local sales tax levy approved by voters in 2011 for an authorized period of six years, between July 2012 – June 2018, and for a total amount of up to \$185.5 million. The proceeds of this special tax are designated for 1) jail expansion, law enforcement and fire/EMS training facilities and equipment, advanced life support (ALS) vehicles and equipment, and animal shelter facilities and equipment, 2) transportation facilities, equipment, improvements, and airport facilities and expansion, 3) library facilities, 4) senior center facilities, 5) law enforcement, E-911 and county marshal facilities, vehicles and equipment, 6) business and economic development land acquisition, infrastructure, facilities, debt service, sewer system improvements, 7) courthouse expansion, and 8) fire and emergency services facilities, vehicles and equipment.

The *Recreation Bond Fund* is used to account for proceeds of the 2009, 2010, 2012, and 2014 recreation bonds and the recreation projects funded by the bonds.

The County reports the following major proprietary fund:

The **EMS Fund** is used to account for the provisions of emergency medical services to the residents of the County.

Additionally, the County reports the following fund types:

**Special revenue funds** account for revenue sources that are legally restricted or committed to expenditure for specific purposes, such as grant programs, certain fines and forfeitures, E911 charges, and law enforcement services.

Capital projects funds account for the capital expenditures made by the County.

**Debt service fund** accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

**Internal service funds** account for fleet management services and to account for the County's contributions and employee premiums for health, disability, and life insurance, and the related payments for these associated costs.

The *enterprise fund* is used to account for the operations of the County's conference center. Activities of the fund include administration, operations, and collection activities.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (CONTINUED)

# C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The *agency funds* are used to account for the collection and disbursement of monies by the County on behalf of other governments and individuals. Constitutional officers use these funds to temporarily hold assets.

In accounting and reporting for its proprietary operations, the government applies all GASB pronouncements. GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements* incorporated in the GASB's authoritative literature certain accounting and financial reporting guidance issued on or before November 30, 1989 which does not conflict with or contradict GASB pronouncements.

As a general rule the effects of interfund activity have been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other changes between the County's emergency medical services and various other functions of the County. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges for services provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and of the County's internal service funds are charges for goods and services provided. Operating expenses of the enterprise funds and internal service funds include the cost of these goods and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

#### D. Cash, Cash Equivalents, and Investments

Cash includes cash on hand, demand deposits, certificates of deposit, and short-term investments with original maturities of three months or less from the date of acquisition.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (CONTINUED)

#### D. Cash, Cash Equivalents, and Investments (Continued)

State statutes authorize the County to invest in U.S. Government obligations; U.S. Government agency obligations; obligations of the State of Georgia; obligations of other counties; municipal corporations and political subdivisions of the State of Georgia which are rated "AA" or better by Moody's Investors Service, Inc.; negotiable certificates of deposit issued by any bank or trust company organized under the laws of any state of the United States of America or any national banking association; repurchase agreements when collateralized by the U.S. Government or agency obligations; and pooled investment programs sponsored by the State of Georgia for the investment of local government funds. Investments are stated at fair value, based on quoted market prices.

Operating funds are currently invested in the Georgia Fund 1 Liquidity Pool; U.S. Government agencies; or maintained in demand deposit, savings, and public funds money market accounts with financial institutions.

The investment in the Georgia Fund 1 represents the County's portion of a pooled investment account operated by the Office of State Treasurer. The pool consists of U.S. treasury obligations, securities issued or guaranteed by the U.S. Government or any of its agencies or instrumentalities, banker's acceptances, overnight and term repurchase agreements with highly rated counterparties, and collateralized bank accounts. The investment in the Georgia Fund 1 is valued at fair market value. As of September 30, 2015, the County's investment in Georgia Fund 1 was rated AAAf by Standard' & Poor's. Funds included in this Pool are not required to be collateralized.

#### E. Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal period as well as all other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, represent long-term borrowing arrangements with established repayment schedules, and are offset by a fund balance account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (CONTINUED)

#### F. Inventories and Prepaid Items

Inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. Inventories consist of expendable supplies held for consumption. The cost is recorded as an asset at the time the individual item is purchased. Inventories reported in the governmental funds are equally offset by a nonspendable fund balance category, which indicates that they do not constitute "available, spendable resources" even though they are a component of net current assets.

Payments to vendors for services that will benefit periods beyond September 30, 2015, are recorded as prepaid items. Prepaid items reported in the governmental funds are also equally offset by a nonspendable fund balance category, which indicates that they do not constitute "available, spendable financial resources" even though they are a component of net current assets. These items are accounted for using the consumption method.

#### **G.** Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the government-wide financial statements. Capital assets, not including infrastructure, are defined by the County as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. All infrastructure assets are capitalized, regardless of cost. Assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Capital assets of the primary government are depreciated using the straight line method over the following useful lives:

Asset Category	Years
Buildings and improvements	50
Vehicles	5
Machinery and equipment	5-20
Infrastructure	25-50

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (CONTINUED)

#### H. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expense / expenditure) until that time. The County has two items which qualify for reporting in this category. One is the deferred outflows of resources related to the recording of changes in its net pension liability. Certain changes in the net pension liability are recognized as pension expense over time instead of all being recognized in the year of occurrence. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five year period.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has two types of items that qualify for reporting in this category. The governmental funds report unavailable revenues from property taxes as these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available. Additionally, the governmental funds balance sheet and government wide statement of net position will report unearned property tax revenues as a deferred inflow of resources as the amount represents resources associated with an imposed non-exchange revenue transaction received or reported as a receivable before the period for which the property taxes were levied. These revenues will be recognized as an inflow of resources in the period for which they were levied.

#### I. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expended in the year of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Bond issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (CONTINUED)

#### J. Compensated Absences

It is the County's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Employees can accumulate up to 320 hours of vacation leave for regular employees and up to 480 hours of vacation leave for fire district employees. The amount of sick leave that can be accumulated is unlimited.

Employees are entitled to all accrued vacation and fifty percent (50%) of all accrued sick leave upon separation, regardless if retirement qualifications are met. All vacation and sick leave is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignation and retirements.

#### K. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

**Fund Balance** – Generally, fund balance represents the difference between the assets and deferred outflows of resources and the liabilities and deferred inflows of resources under the current financial resources management focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by a formal vote (resolution) of the County Commission. Only the County Commission may modify or rescind the commitment through the passage of a resolution.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (CONTINUED)

#### K. Fund Equity (Continued)

Assigned – Fund balances are reported as assigned when amounts are constrained by the County's intent to be used for specific purposes, but are neither restricted nor committed. The Board of Commissioners retains the authority to make assignments.

*Unassigned* – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The County reports positive unassigned fund balance only in the General Fund.

**Flow Assumptions** – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the County's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the County's policy to use fund balance in the following order: (1) Committed, (2) Assigned, (3) Unassigned.

**Net Position** – Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the County has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

#### L. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Cherokee County Defined Benefit Plan (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### M. Interfund Transfers

Transactions that constitute reimbursement to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions, except interfund reimbursement transactions are reported as transfers.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (CONTINUED)

#### N. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and the disclosure of contingent liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### NOTE 2. LEGAL COMPLIANCE - BUDGETS

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. On or around September 1, the County Manager submits to the Board of Commissioners a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. At least one public hearing is conducted to obtain taxpayer comments.
- 3. The budget is formally approved at the first Board meeting in October, or shortly thereafter as deemed appropriate by the Budget Officer.
- 4. The County Manager is authorized to transfer amounts between accounts within any department. All supplemental appropriations must be enacted by the County Commission.
- 5. The legal level of control (the level at which expenditures may not legally exceed appropriations) for each legally adopted annual operating budget is typically at the department level. For the capital project fund budgets the legal level of control is typically the fund as a whole.
- 6. Annual appropriated budgets are adopted for the General Fund, each Special Revenue Fund, each Capital Projects Fund, and the Debt Service Fund for the fiscal year ended September 30, 2015. Budget amounts are as originally adopted, or as amended by the Board of Commissioners. The supplementary budgetary appropriations made are reflected in the final budget numbers. Unencumbered appropriations lapse at fiscal year-end. The budgets were adopted on the GAAP basis of accounting.

# NOTE 3. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

# A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds." The details of this \$100,828,846 difference are as follows:

\$ (86,765,000)
169,099
(1,018,319)
(1,534,981)
(494,757)
(1,839,732)
 (9,345,156)
\$ (100,828,846)
\$

# B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances* – *total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "the net effect of various miscellaneous transactions involving capital assets (i.e., donations, sales and trade-ins is to increase net assets." The details of this \$3,090,619 difference are as follows:

Net adjustment to increase fund balance - total governmental funds to arrive at net position - governmental activities	\$ 3,090,619
Disposal of capital assets	 (8,295,192)
Donations of capital assets	\$ 11,385,811

# NOTE 3. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their useful lives and reported as depreciation expense." The details of this \$35,154,277 difference are as follows:

Capital outlay	\$ 13,407,060
Depreciation expense	 (48,561,337)
Net adjustment to decrease <i>net changes in fund balances - total</i> governmental funds to arrive at changes in net position of	
governmental activities	\$ (35,154,277)

Another element of that reconciliation explains that "Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds." The details of this \$1,455,714 difference are as follows:

Compensated absences	\$ (982,681)
Insurance claims	(70,428)
Amortization expense	108,940
Decrease in nonexchange financial guarantee	2,124,966
Pension expense	181,784
Landfill monitoring costs	245,835
Accrued interest payable	(152,702)
Net adjustment to increase net changes in fund balances - total	
governmental funds to arrive at changes in net position of	
governmental activities	\$ 1,455,714

#### NOTE 4. DEPOSITS AND INVESTMENTS

#### A. Credit Risk

State statutes authorize the County to invest in obligations of the State of Georgia or other States; obligations issued by the U.S. Government; obligations fully insured or guaranteed by the U.S. Government or by a government agency of the United States; obligations of any corporation of the U.S. Government; prime banker's acceptances; the local government investment pool established by State law; repurchase agreements; and obligations of other political subdivisions of the State of Georgia. The County does not have an investment policy and, therefore, has elected to follow State statutes for limiting credit risk on investments.

At September 30, 2015, the County had the following investments:

Investment	Maturity	Amount		
Certificate of deposit	12 month	\$	157,914	
Certificate of deposit	15 month		122,147	
Certificate of deposit	24 month	month		
Georgia Fund 1	44 day WAM		51,116,529	
Money market	1 day		40,106,740	
		\$	91,626,303	

The County is reporting its investments in Georgia Fund 1 and the money market investments as cash equivalents in the financial statements as of September 30, 2015.

#### B. Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the County's investment policy limits at least half of the County's investment portfolio to maturities of less than one year.

#### C. Custodial Credit Risk - Deposits

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the County will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. Government, or bonds of public authorities, counties, or municipalities. As of September 30, 2015, the County's cash accounts were secured, insured or collateralized in accordance with state law.

#### NOTE 5. RECEIVABLES

Receivables at September 30, 2015, for the County's individual major funds and nonmajor funds in the aggregate are as follows:

			Fire	Gov	Other ernmental
	General	District		Funds	
Receivables:	_		_		_
Property taxes	\$ 266,030	\$	125,442	\$	34,993
Accounts	 1,001,790		1,208		9,825,038
Gross receivables Less allowance for	1,267,820		126,650		9,860,031
uncollectibles	 26,603		12,544		3,499
Net total receivables	\$ 1,241,217	\$	114,106	\$	9,856,532
Deseivables	EMS Fund		Non-major Conference Center	. <u>-</u>	Internal Service Funds
Receivables:					
Accounts  Less allowance for	\$ 7,224,212	\$	20,952	\$	615,862
uncollectibles	 6,806,105		-		_
Net total receivables	\$ 418,107	\$	20,952	\$	615,862

The County bills and collects its own property taxes as well as taxes for the Cherokee County School System ("School System") and some municipalities within the County. Collections of the County taxes and remittance of them to the General Fund, Fire District Fund, Debt Service Fund, the School System, the City of Ball Ground, and the State are accounted for in the Tax Commissioner Agency Fund. County property taxes are recognized when levied to the extent that they result in current receivables. Property taxes are levied in August based on assessed values on January 1<sup>st</sup> and are due on December 20<sup>th</sup> of each year. Collections of property taxes are made throughout the year. Liens may be attached to property for unpaid taxes at any time within three years after the due date.

#### NOTE 6. CAPITAL ASSETS

#### A. Primary Government

	Beginning Balance Increases		Transfers Decreases				Ending Balance		
Governmental activities:									
Capital assets, not being depreciated:

#### NOTE 8. LONG-TERM DEBT

#### **Primary Government**

The following is a summary of long-term debt activity for the fiscal year ended September 30, 2015:

	Beginning Balance Restated	 Additions	 Reductions	Ending Balance	Oue within One year
Governmental activities					
Bonds payable	\$ 91,180,000	\$ -	\$ (4,415,000)	\$ 86,765,000	\$ 4,090,000
Less: discounts	(182,272)	-	13,173	(169,099)	-
Add: premiums	 1,140,432	<u>-</u>	 (122,113)	 1,018,319	 
Bonds payable, net	 92,138,160	-	(4,523,940)	87,614,220	 4,090,000
Capital leases	25,062	-	(25,062)	=	-
Net pension liability	37,721,500	2,986,883	(2,841,209)	37,867,174	-
Claims payable	424,329	910,196	(839,768)	494,757	371,068
Nonexchange guarantees	2,124,966	-	(2,124,966)	-	-
Compensated absences	8,432,044	3,345,748	(2,361,471)	9,416,321	7,062,241
Landfill postclosure	2,085,567	-	(245,835)	1,839,732	170,489
Governmental activities	 <u> </u>			<u> </u>	
Long-term liabilities	\$ 142,951,628	\$ 7,242,827	\$ (12,962,251)	\$ 137,232,204	\$ 11,693,798

For governmental activities, claims payable, compensated absences, and landfill postclosure costs are generally liquidated by the General Fund. The net pension liability is primarily liquidated through the General Fund and Fire District Fund. The beginning balance does not include \$25,794 for the net OPEB obligation, as this year the County is reporting \$35,865 as a net OPEB asset. In addition, the beginning balance has been restated as a result of implementing GASB 68 and 71 for the recording of the net pension liability.

2035-2037		2,265,000			171,250	
Total	\$	86,765,000		\$	32,995,812	

#### NOTE 8. LONG-TERM DEBT (CONTINUED)

#### **Primary Government (Continued)**

**Landfill Postclosure Costs.** The County owns and operated a landfill site which began operating in November 1976. State and federal regulations required the County to close its landfill once its capacity was reached on July 1, 1994, and to monitor and maintain the site for 30 years after closure.

The County elected an early closure date of October 3, 1993, and for that reason was exempt from the 30-year rule, and was required to monitor the landfill for only five years. However, recent monitoring has detected levels of contamination higher than permissible, and engineers are in the process of assessing the corrective measures to be taken. At this time, engineering studies estimate postclosure costs of approximately \$1,839,732 over the next 10 years. These costs are based on the amount that would be paid if all equipment, facilities, and services required to monitor and maintain the landfill were acquired as of September 30, 2015. However, actual costs may be higher due to inflation, changes in technology, or changes in landfill laws and regulations.

Nonexchange financial guarantee. The County has entered into an intergovernmental agreement with the Cherokee County Development Authority (the Authority) whereby the County has pledged to make all principal and interest payments necessary to cover the 2009 and 2010 notes payable, in the event the Authority does not have sufficient resources available to make such payments. The notes are further described in the Authority's section of this note. The Cherokee County Development Authority is reported as a discretely presented component unit of the County. The 2009 note matures in September of 2029 and the 2010 note will mature in January 2016. The notes were issued to finance the acquisition and development of land which the Cherokee County Development Authority continues to own and are making improvements in order to sell or lease to new businesses looking to move into the county. As the plots are sold or leased, the proceeds from the sale will be used to make the necessary debt service payments, and to the extent available, to reimburse the County for prior debt service payments. As of September 30, 2015 the County has made \$6,146,965 in total principal and interest payments on the guarantee, \$3,978,020 being paid in the fiscal year ended September 30, 2015. As of September 30, 2015 the County has received \$3,966,989 in reimbursements from the Cherokee County Development Authority. Based on projected future revenue of the Authority related to these properties, it is not likely that the County will have to make future principal and interest payments on these guarantees. The County is no longer reporting a liability for the guarantee as of September 30, 2015.

#### NOTE 8. LONG-TERM DEBT (CONTINUED)

#### <u>Discretely Presented Component Unit – Cherokee County Development Authority</u>

	 Beginning Balance	Add	litions	R	eductions	Ending Balance	Oue within One year
Notes payable	\$ 6,342,604	\$		\$	(3,760,155)	\$ 2,582,449	\$ 1,978,919
Cherokee County Development Authority - Long-term liabilities	\$ 6,342,604	\$		\$	(3,760,155)	\$ 2,582,449	\$ 1,978,919

In 2009, the Cherokee County Development Authority entered into a note agreement to finance land development in the County. Monthly payments on the note are \$30,722 with a maturity date of September 1, 2018. The interest rate on the note is 5.35%.

In 2010, the Cherokee County Development Authority entered into a note agreement to finance land development in the County. Monthly payments on the note is \$11,604 with two balloon payments of \$819,148 and \$816,660 due on December 1, 2015 and on the maturity date of January 1, 2016, respectively. The interest rate on the note is 3.55%.

The Authority's debt service requirements to maturity on the notes are as follows:

Fiscal Year Ending September 30,		Principal	Interest		
2016	\$	1,978,919	\$	48,762	
2017		351,000		17,666	
2018		252,530		3,402	
Total	\$	2,582,449	\$	69,830	

As described in the primary government section of this footnote the County has guaranteed these debt service payments for the Authority and to date has made \$720,498 principal and interest payments on these notes. As a result of these past payments made by the County, the Authority reports a due to the primary government of \$2,179,976 at September 30, 2015.

#### NOTE 9. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The composition of interfund balances as of September 30, 2015, is as follows:

Receivable Fund	Payable Fund	<u></u>	Amount
General Fund	Nonmajor governmental funds	\$	206,817
General Fund	Internal service funds		50,972
		\$	257,789

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, and (2) transactions are recorded in the accounting system.

Advances between the funds represent long-term borrowings between two funds which will be repaid over more than one fiscal year. The advances as of September 30, 2015 is as follows:

Receivable Fund	Payable Fund	Amount			
Nonmajor governmental funds	Nonmajor governmental funds	\$	500,000		

Transfers between the funds as of September 30, 2015 are as follows:

Receivable Fund	Payable Fund	 Amount
EMS Fund	General Fund	\$ 1,835,720
Nonmajor governmental funds	General Fund	3,236,087
Nonmajor governmental funds	Nonmajor governmental funds	179,005
		 3,415,092
Nonmajor proprietary fund	Nonmajor governmental funds	168,530

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that the statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

#### NOTE 10. DEFINED BENEFIT PENSION PLAN

#### A. Primary Government

Plan Description. The County, as authorized by the County Commission, has established a non-contributory defined benefit pension plan, The Cherokee County Defined Benefit Plan (the Plan), covering substantially all of the County's employees. The County's pension plan is administered through the Association County Commissioners of Georgia Third Restated Defined Benefit Plan (the ACCG Plan), an agent multiple-employer pension plan administered by GEBCorp and affiliated with the Association of County Commissioners of Georgia (ACCG). The Plan provides retirement, disability, and death benefits to plan members and beneficiaries. Plan benefits are provided for Plan participants who were participants in the Plan before January 1, 2004 whereby retirees receive between 1% and 1.75% multiplied by the average of the highest five consecutive years of earnings multiplied by the total credited years of service. Plan benefits are provided for Plan participants who were participants in the Plan on or after January 1, 2004 whereby retirees receive 1% multiplied by the average of the highest five consecutive years of earnings multiplied by the total credited years of service. The ACCG, in its role as the Plan sponsor, has the sole authority to establish and amend the benefit provisions and the contribution rates of the County related to the Plan, as provided in Section 19.03 of the ACCG Plan document. The County has the authority to amend the adoption agreement, which defines the specific benefit provisions of the Plan, as provided in Section 19.02 of the ACCG Plan document. The County Commission retains this authority. The ACCG Plan issues a publicly available financial report that includes financial statements and required supplementary information for the pension trust. That report may be obtained at www.gebcorp.com or by writing to Association County Commissioners of Georgia, Retirement Services, 191 Peachtree Street, NE, Atlanta, Georgia 30303 or by calling (800) 736-7166.

**Plan Membership.** As of January 1, 2015, the date of the most recent actuarial valuation date, pension plan membership consisted of the following:

275
536
1,146
1,957

Contributions. The Plan is subject to minimum funding standards of the Georgia Public Retirement Systems Standards law. The Board of Trustees of the ACCG Plan has adopted a recommended actuarial funding policy for the plan which meets state minimum requirements and will accumulate sufficient funds to provide the benefits under the plan. The funding policy for the Plan, as adopted by the County Commission, is to contribute an amount equal to or greater than the actuarially recommended contribution rate. This rate is based on the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. For the year ended September 30, 2015, the County's contribution rate was 6.5% of annual payroll. County contributions to the Plan were \$3,360,194 for the year ended September 30, 2015.

#### NOTE 10. DEFINED BENEFIT PENSION PLAN (CONTINUED)

#### A. Primary Government (Continued)

#### **Net Pension Liability of the County**

Effective October 1, 2014, the County implemented the provisions of GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27, and GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment to GASB Statement No. 68, which significantly changed the County's accounting for pension amounts. The information disclosed below is presented in accordance with this new standard.

The County's net pension liability was measured as of December 31, 2014. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as January 1, 2014 with update procedures performed by the actuary to roll forward to the total pension liability measured as of December 31, 2014.

**Actuarial Assumptions.** The total pension liability in the January 1, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.00%

Salary increases 3.5% - 5.5%, including inflation

Investment rate of return 7.50 %, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Healthy Mortality Table.

The actuarial assumptions used in the January 1, 2014 valuation were based on the results of an actuarial experience study through December 31, 2013.

The long-term expected rate of return on pension plan investments was determined through a blend of using a building-block method based on 20-year benchmarks (25%) and 30-year benchmarks (25%), as well as forward-looking capital market assumptions for a moderate asset allocation (50%), as determined by UBS. Expected future rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2014 are summarized in the table on the following page:

#### NOTE 10. DEFINED BENEFIT PENSION PLAN (CONTINUED)

#### A. Primary Government (Continued)

Asset class	Target allocation	Long-term expected real rate of return*
Fixed income	30%	6.78%
Large Cap equity	30%	9.77
International equity	15%	7.48
Other equity	20%	9.23
Real estate	5%_	10.63
Total	100%	

<sup>\*</sup> Rates shown are net of the 3.00% assumed rate of inflation

**Discount rate.** The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that County contributions will be made based on the average County contribution made to the Plan over the prior five years. Based on this assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all of the projected benefit payments to determine the total pension liability.

**Changes in the Net Pension Liability of the County**. The changes in the components of the net pension liability of the County for the year ended September 30, 2015, were as follows:

	<b>Total Pension</b>		Total Pension Plan Fiduciary		Net Pension	
		Liability (a)	ľ	Net Position (b)		Liability (a) - (b)
Balances at 9/30/14	\$	93,682,001	\$	53,700,079	\$	39,981,922
Changes for the year:						
Service cost		3,232,735		-		3,232,735
Interest		6,841,216		-		6,841,216
Contributions—employer		-		3,284,519		(3,284,519)
Contributions—employee		-		3,161,975		(3,161,975)
Net investment income		-		3,735,315		(3,735,315)
Benefit payments, including refunds of employee contributions		(4,931,584)		(4,931,584)		-
Administrative expense		-		(172,667)		172,667
Other changes		-		(89,595)		89,595
Net changes		5,142,367		4,987,963		154,404
Balances at 9/30/15	\$	98,824,368	\$	58,688,042	\$	40,136,326

#### NOTE 10. DEFINED BENEFIT PENSION PLAN (CONTINUED)

#### A. Primary Government (Continued)

The required schedule of changes in the County's net pension liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

**Sensitivity of the net pension liability to changes in the discount rate.** The following presents the net pension liability of the County, calculated using the discount rate of 7.5 percent, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

			Current		
	-	1% Decrease (6.5%)	Discount Rate (7.5%)	_	1% Increase (8.5%)
County's net pension liability	\$	55,016,716	\$ 40,136,326	\$	28,240,991

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of December 31, 2014 and the current sharing pattern of costs between employer and employee.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. For the year ended September 30, 2015, the County recognized pension expense of \$3,165,869. At September 30, 2015, the County reported deferred outflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources
Net difference between projected and actual earnings on pension plan investments Contributions made subsquent to the measurement date - pension	\$ 273,054 2,497,647
	\$ 2,770,701

The County's contributions subsequent to the measurement date of \$2,497,647 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the fiscal year ending September 30, 2016. The other amount reported as deferred outflows of resources relate to pensions will be recognized in pension expense as follows:

#### NOTE 10. DEFINED BENEFIT PENSION PLAN (CONTINUED)

#### A. Primary Government (Continued)

Deferred outflows of resources related to pensions will be recognized in pension expense as follows:

Year ending September 30:	
2016	\$ 68,264
2017	68,264
2018	68,264
2019	 68,262
Total	\$ 273,054

#### B. Discretely Presented Component Unit – Department of Public Health

**Plan Description.** All full-time personnel employed by the Board of Health participate in the Employees' Retirement System of Georgia (ERS), which is a cost-sharing multiple-employer, defined benefit, public employee retirement system (PERS). ERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly during the 1949 Legislative Session for the purpose of providing retirement allowances for employees of the State of Georgia and its political subdivisions. ERS is directed by a Board of Trustees. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. ERS issues a publicly available financial report that can be obtained at www.ers.ga.gov/formspubs/formspubs.

ERS provides service retirement, disability retirement, and survivor's benefits for its members. Members may retire and receive a normal monthly retirement benefit after 10 years of creditable service and the age of 65. Early retirement at the age of 60 may be elected, with a 5% reduction of benefits for each year under the age of 65 if the individual has fewer than 30 years of creditable service. Individuals with 30 years of creditable service may retire early, regardless of age. Death benefits and disability retirement benefits vary according to years of service.

Members become fully vested after 10 years of service. If a member terminates with less than 10 years of service, no vesting of employer contributions occurs, but the member's contributions are refunded with interest.

For the year ended June 30, 2015, the Board of Health's total payroll for all employees was \$7,697,802 and total covered payroll was \$4,391,260. Covered payroll refers to all compensation paid by the Board of Health to active employees covered by the plan.

#### NOTE 10. DEFINED BENEFIT PENSION PLAN (CONTINUED)

#### B. Discretely Presented Component Unit – Department of Public Health (Continued)

Contributions. The Board contribution is set by the ERS Board of Trustees, dependent on the recommendation of the System's actuary. Such employer contributions fund the major portion of benefits under ERS and are adjusted periodically to insure actuarial soundness of the System. The employer contribution rate varies depending on which retirement plan an employee is enrolled. Employees whose full-time employment began before July 1, 1982, participate in the "old" plan. Employees whose full-time employment began between July 1, 1982, and December 31, 2008, are enrolled in the "new" plan and the employer contribution rate for the old and new plan was 21.96%. All employees whose full-time employment began after January 1, 2009, are enrolled in the GSEPS plan. The Board of Health's contributions to ERS totaled \$920,619 for the year ended June 30, 2015. The employer contribution rate for this plan was 20.96% for fiscal year 2015.

All members of the system contribute varying percentages for Retirement Contributions and Group Term Life Insurance depending on which retirement plan the employee is enrolled. Those enrolled in the "old" plan contribute a total of 6.5% of Earnable Compensation (6.25% for retirement and .25% for Group Term Life). Employees enrolled in the GSEPS plan contribute 1.25% (all retirement contributions). All employee contributions on deposit at least one year earn four percent interest compounded annually.

In addition, participants in the GSEPS plan can voluntarily participate in a 401k plan. Members in this plan will receive a 1% salary match from the state on the first 1% of compensation contributed by the employee. For each additional percent contributed by an employee (up to 4%), the state will match 50% of that amount (up to 2% of compensation). The 401k employer contribution is subject to a five year vesting schedule, vesting 20% for each completed year of service in a GSEPS-eligible position.

## Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the Cherokee County Board of Health reported a liability of \$6,989,502 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013. The Board of Health's proportion of the net pension liability was based on contributions to ERS during the fiscal year ended June 30, 2014. At June 30, 2014, the Board of Health's proportion was .186356%, which was a decrease of .008186% from its proportion measured as of June 30, 2013.

#### NOTE 10. DEFINED BENEFIT PENSION PLAN (CONTINUED)

#### B. Discretely Presented Component Unit – Department of Public Health (Continued)

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions (continued). For the year ended June 30, 2015, the Board of Health recognized pension expense of \$646,559. At June 30, 2015, the Board of Health reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources		
Net difference between projected and actual earnings on pension plan investments	\$	-	\$	1,705,923	
Changes in proportion and differences between employer contributions and proportionate share of contributions		-		244,454	
Employer contributions subsequent to the measurement date		920,619			
Total	\$	920,619	\$	1,950,377	

The \$920,619 of deferred outflows of resources resulting from the Board of Health's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in the pension expense as follows:

Year ending June 30:	
2016	\$ (579,265)
2017	(518,151)
2018	(426,481)
2019	(426,480)
2020	 -
	\$ (1,950,377)

#### NOTE 10. DEFINED BENEFIT PENSION PLAN (CONTINUED)

#### B. Discretely Presented Component Unit – Department of Public Health (Continued)

**Actuarial assumptions.** The total pension liability was determined by an actuarial valuation as of June 30, 2013, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.00%

Salary increases 5.45% - 9.25%, including inflation

Investment rate of return 7.50%, including inflation, net of pension plan investment expense

Mortality rates were based on the RP-2000 Combined Mortality Table for the periods after service retirement, for dependent beneficiaries, and for deaths in active service, and the RP-2000 Disabled Mortality Table set back eleven years for males for the period after disability retirement.

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period January 1, 2004–June 30, 2009.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return*
Fixed income	30.0%	3.00%
Domestic Large Stocks	39.7%	6.50%
Domestic Mid Stocks	3.7%	10.00%
Domestic Small Stocks	1.6%	13.00%
International Developed Market Stocks	18.9%	6.50%
International Emerging Market Stocks	6.1%	11.00%
Total	100.0%	

<sup>\*</sup> Rates shown are net of the 3% assumed rate of inflation

#### NOTE 10. DEFINED BENEFIT PENSION PLAN (CONTINUED)

#### B. Discretely Presented Component Unit – Department of Public Health (Continued)

**Discount rate**. The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all of the projected benefit payments to determine the total pension liability.

Sensitivity of the Board of Health's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the Board of Health's proportionate share of the net pension liability calculated using the discount rate of 7.5 percent, as well as what the Board of Health's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower or higher than the current rate:

	Current					
	 1% Decrease (6.5%)		Oiscount Rate (7.5%)	_	1% Increase (8.5%)	
Board of Health's proportionate share of net pension liability	\$ 10,192,080	\$	6,989,502	\$	4,263,361	

**Actuarial Valuation Date.** June 30, 2013 is the actuarial valuation date upon which the total pension liability for the plan is based. An expected total pension liability is determined as of June 30, 2014 using standard roll forward techniques. The roll forward calculation adds the annual normal cost (also called service cost), subtracts the actual benefit payments and refunds for the plan year, and then applies the expected investment rate of return for the year.

**Plan Fiduciary Net Position.** Detailed information about the ERS fiduciary net position is available in the separately issued Employees' Retirement System of Georgia financial report. That report may be obtained via the internet at www.ers.ga.gov.

#### NOTE 10. DEFINED BENEFIT PENSION PLAN (CONTINUED)

#### C. Discretely Presented Component Unit – Sequoyah Regional Library System

**Plan Description.** The Sequoyah Regional Library System employees are provided a pension through the Teacher Retirement System of Georgia (TRS). TRS, a cost-sharing multiple-employer defined benefit pension plan, is administered by the TRS Board of Trustees (TRS Board). Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. TRS issues a publicly available financial report that can be obtained at www.trsga.com/publications.

**Benefits Provided.** TRS provides service retirement, disability retirement and death benefits. Normal retirement benefits are determined at 2% of the average of the employee's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. An employee is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of creditable service and attainment of age 60. Ten years of service is required for disability and death benefits eligibility. Disability benefits are based on the employee's creditable service, regardless of age, or after 10 years of service and attainment of age 60. Death benefits equal the amount that would be payable to the employee's beneficiary had the employee retired upon the date of death. Death benefits are based on the employee's creditable service and compensation up to the date of death.

**Contributions:** Per Title 47 of the O.C.G.A., contribution requirements of active employees and participating employers, as actuarially determined, are established and may be amended by the TRS Board. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employees were required to contribute 6.00% of their annual pay during fiscal year 2015. The Library's contractually required contribution rate for the year ended June 30, 2015 was 13.15% of annual payroll. Library contributions to TRS were \$211,031.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions. At June 30, 2015, the Library reported a liability for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2013. An expected total pension liability as of June 30, 2014 was determined using standard roll forward techniques. The Library's proportion of the net pension liability was based on contributions to TRS during the fiscal year ended June 30, 2014. At June 30, 2014, the Library's proportion was 0.015769% which was a decrease of 0.000252% from its proportion measured as of June 30, 2013.

#### NOTE 10. DEFINED BENEFIT PENSION PLAN (CONTINUED)

#### C. Discretely Presented Component Unit – Sequoyah Regional Library System (Continued)

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions (continued). For the year ended June 30, 2015, the Library recognized pension expense of \$128,426. At June 30, 2015, the Library reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources		
Net difference between projected and actual earnings on pension plan investments	\$	-	\$	694,525	
Changes in proportion and differences between employer contributions and proportionate share of contributions		-		35,779	
Employer contributions subsequent to the measurement date		211,031			
Total	\$	211,031	\$	730,304	

Library contributions subsequent to the measurement date of \$211,031 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending June 30:	
2016	\$ (181,763)
2017	(181,763)
2018	(181,763)
2019	(181,763)
2020	(3,252)
	\$ (730,304)

**Actuarial Assumptions.** The total pension liability as of June 30, 2014 was determined by an actuarial valuation as of June 30, 2013 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.00%

Salary Increases 3.75-7.00%, average, including inflation

Investment rate of return 7.50%, net of pension plan investment expense, including inflation

#### NOTE 10. DEFINED BENEFIT PENSION PLAN (CONTINUED)

#### C. Discretely Presented Component Unit – Sequoyah Regional Library System (Continued)

**Actuarial Assumptions (continued).** Mortality rates were based on the RP-2000 Combined Mortality Table for Males and Females set back two years for males and set back three years for females.

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2004 - June 30, 2009.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return*
Fixed income	30.0%	3.00%
Domestic Large Stocks	39.7%	6.50%
Domestic Mid Stocks	3.7%	10.00%
Domestic Small Stocks	1.6%	13.00%
International Developed Market Stocks	18.9%	6.50%
International Emerging Market Stocks	6.1%	11.00%
Total	100.0%	

<sup>\*</sup> Rates shown are net of the 3% assumed rate of inflation

**Discount Rate.** The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### NOTE 10. DEFINED BENEFIT PENSION PLAN (CONTINUED)

#### C. Discretely Presented Component Unit – Sequoyah Regional Library System (Continued)

**Discount Rate (continued).** The following presents the Library's proportionate share of net pension liability calculated using the discount rate of 7.50%, as well as what the Library's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate:

rease	D' . D .		
<u>%)                                    </u>	(7.5%)		6 Increase (8.5%)
71 367 Ś	1 992 205	\$	609,450
7	<b>7</b> 1,367 \$	71,367 \$ 1,992,205	71,367 \$ 1,992,205 \$

**Pension Plan Fiduciary Net Position.** Detailed information about the pension plan's fiduciary net position is available in the separately issued TRS financial report which is publicly available at www.trsga.com/publications.

#### NOTE 11. DEFINED CONTRIBUTION PENSION PLAN

Prior to January 1, 2003, the County offered its employees a defined contribution money purchase pension plan, a single employer plan, in accordance with Internal Revenue Code Section 401 (a). Effective January 1, 2003, this Plan was closed to new enrollees. The Plan was established by the Cherokee County Board of Commissioners and is administered by Massachusetts Mutual. It is available to all full-time employees who work more than 1,716 hours per year. Employees are 100% vested in the County's contributions after five years of service. The County has the authority to amend the Plan provisions. At September 30, 2015, there were 10 active participants in the Plan. The contributions are not available to Plan participants until termination, retirement, death, or disability. Contribution requirements are established and may be amended by the Cherokee County Board of Commissioners. The County contributes 4% of eligible salary to the 401 (a) Plan and a 50% matching contribution for every employee dollar contributed to the deferred compensation plan (Section 457 plan) up to 3% of pay. Employees are not required to contribute. For the fiscal year ended September 30, 2015, the County's contribution to the Plan was \$26,000. There are no administrative fees charged directly to the Plan or participants. No publicly available financial report that includes financial statements and required supplementary information is issued.

#### NOTE 12. OTHER POSTEMPLOYMENT BENEFITS

#### A. Plan Description

The Cherokee County Retirement Pension Insurance Plan (the "OPEB Plan") is a single-employer defined benefit postemployment health care plan or other postemployment benefit (OPEB) plan.

The County offers postemployment benefits to eligible employees enrolled in the County's medical plans. The Plan is administered by Blue Cross-Blue Shield and amendments or changes to the Plan are made by the County's Board of Commissioners. There are no separately issued financial statements related to the County's Plan.

The Plan provides subsidies for eligible employees, whereby the County contributes a portion of the retiree's premium.

#### **Retirement Options/Benefit Provisions**

Eligible retirees and former employees are offered the same health and prescription drug coverage as active employees. Retirees contribute \$420 for retiree only, \$672 for retiree plus spouse, or \$1,092 for retiree plus family, per month towards the actuarially calculated monthly rates. The County contributes 100% towards retirees who were grandfathered into the plan, as part of the incentivized retirement plan. The County contributes until these employees reach the age of 65.

#### Eligibility

Employees must be a minimum age of 55 years with 5 or more years of service in order to receive benefits. They also may meet the requirements by having age plus service equal 70 years or have at least 30 years of service. Eligible employees can elect to receive coverage for their spouses.

#### **Fund Membership**

The following schedule (derived from the most recent actuarial valuation report) reflects membership for the OPEB Plan as of October 1, 2014.

Active employees (fully eligible)	101
Active employees (not fully eligible)	844
Retirees	54
Total	999

#### NOTE 12. OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

#### **B.** Contributions

The schedule below shows the annual OPEB cost for the current fiscal year and prior fiscal years and periods along with the percentage actually contributed by the County.

**Schedule of Employer Cost and Contributions** 

Fiscal Year or Period Beginning	Annual OPEB Cost	_ Co	Actual County Contribution		Percentage of OPEB Cost Contributed		Net OPEB Obligation (Asset)	
10/1/2014	\$ 451,380	\$	513,039		113.66 %	\$	(35,865)	
10/1/2013	291,000		365,826		125.71		25,764	
10/1/2012	292,000		1,073,184		367.53		100,620	

#### C. Schedule of Funding Progress

As of the most recent valuation date, October 1, 2014, the funded status of the OPEB Plan was as follows:

				Unfunded			UAAL	
Actual	Actuarial		Actuarial	Actuarial			a Percentage	
Valuation Date			Accrued Liability (AAL)	Accrued Liability (UAAL)	Funded Ratio	Covered Payroll	of Covered Payroll	
10/1/14	\$	_	\$ 5.411.832	\$ 5.411.832	- %	\$ 52.217.792	- %	

The required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of Plan assets is increasing or decreasing over time relative to the actuarial accrued liability.

#### NOTE 12. OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

#### D. Annual OPEB Cost

The County's annual OPEB cost and net OPEB obligation for the OPEB Plan for the fiscal year beginning October 1, 2012, (the most recent actuarial valuation date) are as follows:

Derivation of Annual OPEB Cost	
Annual Required Contribution	\$ 451,870
Interest on Net OPEB Obligation	864
Adjustment to ARC	(1,354)
Annual OPEB Cost	\$ 451,380
Derivation of Net OPEB Obligation	
Net OPEB Obligation as of Prior Period	\$ 25,794
Annual OPEB Cost	451,380
Acutal Contribution to Plan	(513,039)
Decrease in Net OPEB Obligation	(61,659)
Net OPEB Obligation (Asset) as of End of Fiscal Year	\$ (35,865)

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revisions as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of October 1, 2014 and the current sharing pattern of cost between employer and employee. The assumptions used in the October 1, 2014 actuarial valuations are as follows:

Cost Method	Projected Unit Credit
Actuarial Asset Valuation Method	Market Value of Assets
Assumed Rate of Return on Investments	3.35%
Medical Cost Trend Rate	7.50%
Ultimate Medical Cost Trend Rate	5.00%
Year of Ultimate Medical Trend Rate	2020
Amortization Method	Level Dollar, open (1)
Remaining Amortization Period	30 years
Payroll Inflation Rate	3.50%

(1) The grandfathered benefites are amortized over a remaining period of 20 years.

#### NOTE 13. RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; thefts of, damage to, and destruction of assets; errors and omissions; and natural disasters. The County is partially self-insured for workers' compensation claims. This self-insurance plan is described below. The County has purchased insurance for all other risks of loss. Losses have not exceeded insurance coverage in the past three years.

The County is partially self-insured for workers' compensation claims. Individual limits for County payments are \$250,000 per claim. After these limits are met, private insurance covers the claims. The County has entered into a contract with a third party to administer the claims. This activity is recorded in the fund where the injured employee is compensated. The following describes the activity related to these claims based on actual claims presented after fiscal year-end and historical experience. Based on historical payouts of the claims, management has determined that seventy-five percent (75%) of the liability would be paid within one fiscal year and is reflected in the statement of net position as such.

Changes in the balances of claims liabilities during the current fiscal year and prior two years or periods are as follows:

Fiscal	Beg	Beginning of Current Year						End of			
Year /	ear / Year Claims		<b>Claims and Charges</b>			Claims	Year Claims				
Period		Liability	In Estimates Paid			In Estimates			Paid		Liability
2015	\$	424,329	\$	910,196	\$	839,768	\$	494,757			
2014		590,274		810,716		976,661		424,329			
2013		1,022,137		490,924		922,787		590,274			

#### NOTE 14. COMMITMENTS AND CONTINGENT LIABILITIES

#### **Contractual Commitments:**

In addition to the liabilities enumerated in the balance sheet, at September 30, 2015, the County has contractual commitments on uncompleted contracts of \$8,840,376.

#### **Litigation:**

The County is involved in several pending lawsuits. Liability, if any, which might result from these proceedings, would not, in the opinion of management and legal counsel, have a material adverse effect on the financial position of the County.

#### **Grant Contingencies:**

The County has received Federal and State grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to the disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, management of the County believes such disallowances, if any, will not be significant.

#### NOTE 15. HOTEL/MOTEL LODGING TAX

The County has levied a 6% lodging tax. During the fiscal year ended September 30, 2015, the County spent \$210,530 to promote tourism, conventions and trade shows. This is 100% of the tax receipts to be expended for these purposes under the Official Code of Georgia Annotated 48-13-51. The County complies with the requirement under this law.

#### NOTE 16. RESTATEMENT

As discussed in Note 10 above, the County implemented the provisions of GASB Statement No. 68, Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27 as well as Statement No. 71, Pension Transition for Contributions made Subsequent to the Measurement Date — an amendment of GASB Statement No. 68, effective October 1, 2014. The new standards significantly changed the County's accounting for pension amounts. As a result of this change in accounting principle, the County was required to restate beginning net position as shown below:

	(	Governmental Activities
Net position, as previously reported	\$	1,028,565,735
Restatement for implementation of GASB Statements No. 68 & 71:		
Net pension liability as of June 30, 2014		(37,721,500)
Removal of previously reported net pension asset, under GASB		
Statement No. 27		3,544,359
Contributions made subsequent to prior measurement period		2,285,043
Net position, as restated	\$	996,673,637
Net position, as previously reported Restatement for implementation of GASB Statements No. 68 & 71:	\$	<b>EMS Fund</b> 2,714,013
Net pension liability as of June 30, 2014		(2,260,422)
Contributions made subsequent to prior measurement period		136,929
Net position, as restated	\$	590,520
	ī	Business-type Activities
Net position, as previously reported	\$	3,199,685
Restatement for implementation of GASB Statements No. 68 & 71:		
Net pension liability as of June 30, 2014		(2,260,422)
Contributions made subsequent to prior measurement period		136,929
Net position, as restated	\$	1,076,192

## NOTE 16. RESTATEMENT (CONTINUED)

	F	leet Fund
Net position, as previously reported	\$	280,942
Restatement for implementation of GASB Statements No. 68 & 71:

#### NONMAJOR GOVERNMENTAL FUNDS

#### Special Revenue Funds

**Sheriff's Commissary**To account for the proceeds of jail inmate commissary sales. These revenues

have been committed by the Sheriff to be used on the County Jail and the

inmates.

**Law Library**To provide for the operation and maintenance of the County's law library. The

revenues collected are from legally restricted fines, as restricted by State law.

Senior Services To account for funds received from various State and local agencies to be

expended for social welfare programs, including services for senior citizens. The revenues are generated by Federal and State grants, which are restricted for

providing senior services.

Confiscated Assets To account for confiscated cash seizures by Cherokee County Law enforcement

from drug related crimes. Funds may be used for any public safety purpose except

salaries of law enforcement personnel, as restricted by State law.

Multiple Grant To account for restricted grant monies received from various Federal and State

agencies.

**Drug Abuse and Treatment**To account for collection of penalty assessments in certain drug related court

cases. Proceeds are restricted by State law for drug abuse treatment and

education programs.

Animal Services To account for activities of the animal shelter. The County has committed 50% of

the landfill host fees to cover operating costs for the animal shelter.

**DUI Court**To account for the coordination of substance abuse intervention with judicial

support. Revenues are generated by a fine assessment, as restricted in use by

State law.

Victim/Witness To account for the 4% fee added to Court fines restricted by State law, for the

benefit of victims of crime and their families.

Parks and Recreation To account for the charges for services and activities of the County's parks and

recreation department. The County has committed the charges generated from the park and recreation programs and alcohol excise taxes to be used for

supporting park and recreation functions.

#### NONMAJOR GOVERNMENTAL FUNDS

#### **Special Revenue Funds (Continued)**

DA Confiscated Assets

To account for District Attorney's (DA) share of confiscated cash seizures by Cherokee County Law enforcement from drug related crimes. Funds may be used for any public safety purpose except salaries of law enforcement personnel, as restricted by State law.

**CDBG** 

To account for the community development block grant receipts and the expenditures related to the grant. Grant receipts are federally restricted for specific purposes in order to provide benefits to low to moderate income groups.

Jail

To account for collection of penalty assessments in certain court cases. Proceeds are restricted for construction, operation, and staffing of County correctional and detention center, as required by State law.

**Sheriff's Forfeitures** 

To account for forfeitures to the County's Sheriff's office. These forfeitures are restricted to be used to offset costs of drug prevention and drug traffic enforcement, as required by State law.

E-911

To account for the activities of the County's E-911 system. Financing is provided by program charges. Revenues are expended for system operations and capital assets, as restricted by State law.

Hotel/Motel

To account for monies collected from the 6% lodging tax. Revenues collected are restricted by State law for the promotion of tourism.

**Transportation** 

To account for the revenues and operating expenses of the County's public transportation system. Revenues of this fund are primarily from federally restricted grants.

**Mental Health Court** 

To account for the revenues and operating expenditures of the County's Mental Health Court which supports the needs of the mentally ill who come in contact with the justice system. Revenues of this fund are primarily grant revenues and transfers from the DATE Fund.

**Drug Accountability Court** 

To account for the enhancement of ancillary services that prevent recidivism such as individualized treatment, vocational and educational services and community reintegration services to achieve long term recovery. Funds are provided by fees charged to participants in the program plus grant revenue, and transfers from the DATE Fund, and are legally restricted for specific use.

#### NONMAJOR GOVERNMENTAL FUNDS

#### **Special Revenue Funds (Continued)**

**Unincorporated County Services** 

To account for the insurance premium tax and the expenditures related to the tax. Revenues generated from this tax are restricted for the benefit of providing services primarily to the unincorporated areas of the County, as restricted by State Law.

#### **Capital Projects Funds**

**SPLOST V** 

To account for proceeds of a special 1% local sales tax levy approved by voters in 2004 for an authorized period of six years, between July 2006 – June 2012, and for a total amount of up to \$200 million. The proceeds of this special tax are designated for 1) new administration building, courthouse renovations, and related parking facilities, 2) transportation facilities and equipment, 3) park and recreation facilities, 4) library facilities and books, 5) public safety facilities and equipment, 6) new emergency children's shelter, 7) new driver's license facility, 8) new conference center, 9) renovations to the old Woodstock Elementary School for the benefit of the Appalachian Technical College, and 10) Senior Center expansion.

Resource Recovery

Development Authority

To account for proceeds of an industrial development bond used to help promote recycling opportunities within the County and the debt service related to the repayment of the bond.

**Impact Fees** 

To account for monies collected from a new development based on that development's fair share of the cost to provide additional facilities in the following categories: public roads, libraries, public safety, fire protection, and parks.

#### **Debt Service Fund**

**Debt Service Fund** 

To account for the accumulation of resources for repayment of the General Obligation Bonds.

#### STATISTICAL SECTION

This part of Cherokee County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health.

#### **Financial Trends**

These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.

#### **Revenue Capacity**

These schedules contain information to help the reader assess the County's most significant local revenue source, property tax.

#### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.

#### **Demographic and Economic Information**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place.

#### **Operating Information**

These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial report for the relevant fiscal year.

<sup>(1)</sup> Revenues decreased as the County made a change in accounting estimate affecting the calculation of the allowance for doubtful accounts.

(2) The County created a Conference Center fund in 2009.

<sup>\*</sup>NOTE: Fiscal Year 2012 only contained nine (9) months. The County converted to a fiscal year ending September from December.

# TAX REVENUES BY SOURCE, GOVERNMENTAL FUNDS

(modified accrual basis of accounting)

a short year from 1/1/2012 - 9/30/2012. This had a significant impact on property tax revenue recognition since typically the county receives significant tax NOTE: In 2012 the County converted from a calendar fiscal year to a 10/1 - 9/30 fiscal year. However, in the year of conversion the County had to budget collections between October and December.

Source: Cherokee County Tax Commissioner

County had to budget a short year from 1/1/2012 - 9/30/2012. This had a significant impact on property tax collections since typically \*NOTE: In 2012 the County converted from a calendar fiscal year to a 10/1 - 9/30 fiscal year. However, in the year of conversion the the County received significant collections between October and December.

 $<sup>^{**}</sup>$  Includes new tax for Parks and Recreation Bonds approved by voter referendum in 2008.

n/a - information was not currently available.

Note: Development Authority bonds are issued by the Development Authority, a component unit of the County, but through an agreement the County is responsible

for debt service payments over and above revenue generated by the authority to pay the bonds.

\* Current information is not yet available, therefore the prior year figures are reported.

Note: Resource Recovery Development Authority bonds are issued by the Resource Recovery Development Authority, a blended component unit of the County. The County pledged one millage point to cover debt service payments if the third party operator defaulted on the bonds. The County has not been required to increase the millage rate by 1 millage point, but has assumed responsibility for the debt service payments. The County is actively seeking a replacement operator to assume a significant portion of this debt.

# DIRECT GENERAL OBLIGATION AND OVERLAPPING GENERAL OBLIGATION AND GUARANTEED REVENUE DEBT SEPTEMBER 30, 2015

(Unaudited)

General Obligation Debt: 2009 Issue 2011 Issue 2014 Issue 2014 Issue Total General Obligation Debt	ss.	33,548,319 9,967,000 6,380,000 21,763,000	71,658,319
Direct Guaranteed Revenue Debt: 2007 Resource Recovery Development Authority Bonds Total Guaranteed Revenue Debt		15,955,901	15,955,901
Total Direct Debt			87,614,220
Overlapping General Obligation Debt Cherokee County School System Total Overlapping Debt Total Direct and Overlapping Debt	4	407,665,000	407,665,000
Cherokee County Debt per Capita:(1) Direct General Obligation Debt Direct Guaranteed Revenue Debt Overlapping General Obligation Debt	ν  ν	310.23 69.08 1,764.90 2,144.21	

<sup>(1)</sup> Based on estimated population of 230,985 as provided by Cherokee County Office of Economic Development.

Note: Resource Recovery Development Authority bonds are issued by the Resource Recovery Development Authority, a blended component unit of the County. The County pledged one millage point to cover debt service payments if the third party operator defaulted on the bonds. The County has not been required to increase the millage rate by 1 millage point, but has assumed responsibility for the debt service payments. The County is actively seeking a replacement operator to assume a significant portion of this debt.

<sup>\*\*</sup> Information is not readily available at this time.

Source: Headcount reporting 2003 - 2008 completed with HR reporting system. Headcount 2009 and after completed by Finance.

Note 1: The chart above reflects all FT & PT budgeted positions to include filled, vacant, and temporary positions. The FTES for 2014 = 1,284.

Note 2: Actual Headcount employed by the County would be less than shown since actual headcount includes attrition and vacancies.

Note 3: The primary reasons headcount increased between 2008 - 2009: 20 FT for CRPA transferring into County operations. 42 FT for Fire, 19 for EMS, 17 for Sheriff Office.

19 Judicial Services, 14 new grant funded positions.

Fleet Maintenance

<sup>\*</sup> Information not readily available

<sup>\*\*2009</sup> indicates this now is collected/reported by DSC and the amount is for the E&S permit as there are no re-inspection fees.

<sup>\*\*\*</sup> No longer measured
\*\*\*\*NOTE: Fiscal Year 2012 only contained nine (9) months. The County converted to a fiscal year ending September from December.
\*\*\*\*\* Change in these numbers due to new voters registration system reporting.

CHEROKEE COUNTY, GEORGIA
